

Balmy Beach Community School Advisory Council Mission Statement

As a School Advisory Council our goals are to:

enhance student learning by providing opportunities and resources that would not otherwise be available;

facilitate effective communication and cooperation between the parent community and the staff at Balmy Beach C.S.; and

build and foster the spirit of community and social responsibility.

We will achieve these objectives by:

- raising funds to provide enrichment programs, supplies, and school improvements
- encouraging and organizing parent volunteers
- providing a respectful and positive environment in which parents can have their opinions heard and have a meaningful discussion with the staff and administration
- fostering healthy relationships within our school and with our neighbouring communities
- participating in opportunities to help others who do not have access to the resources we have
