

ECO Club

Boomerang Lunch

As part of our 2017 Eco-Schools goals, our Faywood Eco-Team has decided to implement a "Boomerang" lunch program at our school. We believe that engaging students in environmental initiatives can make a huge impact on the environment, both globally and locally.

A Boomerang snack/lunch is one that has every piece of it returned to its source. In other words, everything in the lunch box goes back home at the end of the day. Regardless of whether or not it is leftover food, containers, recyclables or garbage, it all goes back.

Battery Recycling

Our school is participating in the Ontario Schools Battery Recycling Challenge (OSBRC) by Raw Materials Company.

The Challenge officially launches on October 16th, 2017 (Waste Reduction Week) and runs until April 20th, 2018 (Friday before Earth Day).

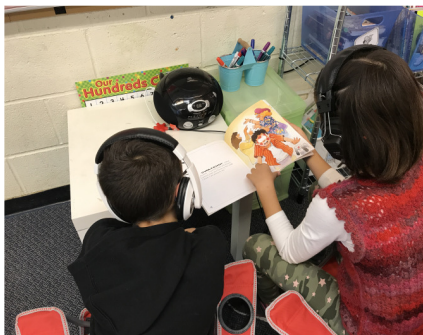

There will be bins set up in the school to accept single use household batteries.

Recycling single use batteries diverts chemicals and reusable materials from our community landfills.

When we choose to recycle, we effectively displace the need to mine and refine the equivalent amount of resources from ore, a major cause of greenhouse gas emissions.

To learn more about the OSBRC please visit:

www.rawmaterials.com/ontario-school-recycling-challenge/

At the listening centre as part of our Daily 5 Literacy Program.

Important!! DATE

Curriculum Night/Corn Roast:

October 3, 2017

Contact Information

It is critical that we have the most current contact information for you.

Please ensure you communicate directly with the office when you have a phone or contact to update.

Safe Dismissal

In order to ensure safety for students you must provide a written note when there is a change in who is picking up your child.

Please make playdates ahead of time to ensure notes can be written.

We will not be able to accept phone calls through-out the day making changes in pick up.

Follow Us on Social Media

Join the conversations happening on TDSB's social media communities. You'll find the most up-to-date information about us on Twitter and our website and plenty of useful information too.

Health & Wellness

Faywood ran and walked for Terry Fox on September 28, 2017

Anaphylaxis - Taking the Necessary Precautions

Anaphylaxis is a serious allergic reaction that can be life threatening. This medical condition can cause a severe reaction to specific foods or other materials, and can result in death within minutes. The TDSB is committed to maintaining a safe and healthy learning environment for all students.

Students who have severe allergies to such food substances are exposed to a severe health risk when such products are consumed in their environment or shared with them. As prevention is the best approach, we ask that you speak with your child about not sharing their snacks or lunches with other students and please do not send any snacks or lunches with your child that contain nuts.

If your child has health problems of any kind, please inform your child's teacher or office staff immediately so that the necessary health protection steps may be taken.
