Givins/Shaw Public School  
c/o Kim Macintyre  
49 Givins St.,  
Toronto, ON  
M6J 2X5

Congratulations, your schoolyard garden has been officially designated by the Canadian Wildlife Federation as a Certified Wildlife Friendly Habitat!

Through your participation in our WILD Spaces program, you've transformed your schoolyard or group's yard into a space that helps wildlife and encourages youth to connect with and learn from nature.

We are truly delighted that Givins/Shaw Public School is dedicated to helping wildlife. In recognition of your initiative, dedication and hard work; the Canadian Wildlife Federation, in partnership with Parks Canada, would like to present you with this certificate, window decal. We hope you take the opportunity to proudly showcase your creation to parents, visitors and passers-by with these tokens of recognition of your hard work!

Givins/Shaw Public School's enthusiasm and consideration make it possible for some of Canada's wildlife to find a welcoming spot in the garden you have prepared. May your efforts be rewarded with an abundance of birds, butterflies, and other wild species visiting to relish the fruit of your labour.

We hope that your wildlife garden will bring out your students' curiosity and sense of wonder and that you will continue to expand this beneficial creation with future students. I also invite you to consider using some of our other educational programming with your students. You can learn more at [CanadianWildlifeFederation.ca/education](http://CanadianWildlifeFederation.ca/education).

Yours sincerely,

A handwritten signature in black ink that reads "Mike Bingley".
