

IPS INSPIRATIONAL MATH MONDAYS KICK-OFF & INTRODUCTION TO DAY THREE

Day 3 Kick-off Assembly began with a discussion about how the beliefs students' have about themselves and their learning potentially changes the way their brain works! The kick-off video called "Get Back Up Again" from the movie *Trolls* further reinforced this message to all students.

Kindergarten to Grade 2

- This lesson is all about understanding a graph without numbers. Students will experience a graph that has cute little emoji's placed in order. After students interpret the graph they will have a chance to create graphs of their own.

Grade 3 to 6

- In this lesson students will work on a shapes task where they will first work visually on completing the pattern. After students share the different ways they see pattern growing they will work to extend and generalize what they have made sense of.
