

IPS INSPIRATIONAL MATH DAYS KICK-OFF & INTRODUCTION TO DAY FOUR

Day 4 begins explaining that speed is not important in mathematics learning and success! The kick-off video called "What I Am" from Will.i.am singing on Sesame Street reinforces to students that we all have different strengths that we bring to problem solving.

Kindergarten to Grade 2

- Students will experience a visual and tactile task where they fold paper to make shapes.

Grade 3 to 6

- Students will experience a task that involves exploring an unsolved mathematics problem by generating number strings and making conjectures about the patterns they see.
