

A TOUR OF CAMPBELL

All visitors must report to the MAIN OFFICE.

If there is a problem, be it course selection or personal, the counsellors are always ready to help.

The forum is the place for socializing before, during, or after school. It is also a place for assemblies, performance and exhibitions. All the flags above the forum represent the diversity of our student population.

A TOUR OF CAMPBELL

The cafeteria is a place for socializing and lunch. It can accommodate close to a thousand students.

The stage in front of the cafeteria makes sure that the cafeteria can be converted into an auditorium if needed.

The library is a spacious and quiet place for studying and research.

A TOUR OF CAMPBELL

Campbell has three activity gymnasiums, enough to meet the needs of its over 1700 students. The gymnasiums are also open for community use after school and on weekends.

It looks like students are having a fun time!

What an exciting game!

A TOUR OF CAMPBELL

The swimming pool is not only for Campbell students, it opens for community use during after school hours and on the weekends as well.

The weight room is open Monday to Friday after school for staff and students.

The enormous soccer field and the running tracks are put to good use by Campbell students.

A TOUR OF CAMPBELL

Campbell has a total of ten laboratories for its popular Science programs.

Students have plenty of chances to watch demonstrations by their teachers and do the experiments themselves.

The Drama classes put on a biannual performance for the school and for the community.

A TOUR OF CAMPBELL

Boys and girls learn cooking in the food laboratory.

Campbell is famous for the high quality concerts produced by its music department.

The art department puts on two shows per year to showcase the students' creative work.

A TOUR OF CAMPBELL

Students learn to repair cars under the guidance of their teacher.

The technology department offers courses on computer repairs, computer assisted drafting and design.

Teachers can book the five computer laboratories available for their classes.

A TOUR OF CAMPBELL

The language laboratory is for students who have problems learning the English language.

Smart boards are often used by both the computer and mathematics departments as tools of instruction to enhance interest in learning.

The accounting students are working on their assignments.

A TOUR OF CAMPBELL

To accommodate the huge student population, portables are used. Each portable is equipped with all the standard equipment that a normal classroom would have.

Campbell is not only a high academic school, it is also very supportive of the disadvantaged students. Campbell is especially strong in mathematics, science, and business. Look at all the trophies students have won over the years!

Many past Campbell students have left their creative art pieces on the wall along the hall ways and at the stair wells.
