DEPARTMENTAL POLICIES

Late Assignments

Students must communicate with the teacher in advance if they anticipate that an assignment will be late. Different situations will require specific decisions based on professional judgment. Late assignments will not be accepted after the assignment has been taken up in class or the marked assignment has been returned.

Missed Evaluations

A student who misses an evaluation must submit upon return to class a parental/guardian note or a doctor's note detailing the reason for the absence. The student may have the opportunity to demonstrate their proficiency of the learning expectations at a later date, at the teacher's discretion. This may or may not be in the same format as the original evaluation. The teacher will determine the time and form in which the evaluation will take place.

Homework Assignments

The purpose of homework assignment is to reinforce and enhance the learning that has taken place in the classroom. It provides students with opportunities for personal growth in independence, self-discipline and resourcefulness.

A student who reviews daily will be prepared for **Quizzes**, which are often spontaneous. **Tests** will be announced before they are given. Students who prepare for a test, other than the night before, will have opportunities to seek help if they encounter difficulties. **Examinations** will cover material that is presented over two to five months.
