

Business SHSM Description:

A.Y. Jackson Secondary School is proud to offer our students the Business SHSM program. This program will allow students to customize their learning from a rich choice of curriculum-based and experiential learning opportunities for all four pathways. Along with the major courses and the required certifications, students must complete a practicum component working with the cooperative education department. The practicum serves as an opportunity for students to explore and refine their career goals in order to make informed decisions about their post-secondary education according to their interests and talents. As a result, students will develop Essential Skills and work habits documented through the Ontario Skills Passport.

Students will be given the opportunity to select their own focus in business (accounting, leadership, marketing and entrepreneurship, economics, international business and communications) or pursue a general approach to their major courses. Additionally, we support students in OYAP and dual credits who would benefit from a structure program that develops their business skills. The SHSM team at A.Y. Jackson Secondary School is confident that our students will be well-prepared for any post-secondary pathway.
