

RETURNING TO SCHOOL

Daily Checklist for Elementary School

This year, we have new health and safety measures in place to help keep students and staff safe from the spread of COVID-19. Everyone, including families, plays a critical role in supporting health and safety in our school communities.

Every day, please:

Screen your child for symptoms of COVID-19 and keep them home if they:

- Feel sick or have symptoms of COVID-19
- Have been in close contact with someone who is sick or has confirmed COVID-19 in the past 14 days
- Have returned from travel outside of Canada in the past 14 days

Confirm your child's self-assessment by completing it through the [Health Screening App](#) or signing and sending the [TDSB Health Pass](#)

Have multiple snug and comfortable **masks**, so you can wash them daily and have back-ups ready. Pack a few masks each day and a bag for soiled masks to go in during the school day.

Review and practice proper **hand washing** techniques at home, especially before and after eating, sneezing, coughing, and adjusting a mask or cloth face covering.

Pack a **full water bottle** and **litterless lunch** and snacks daily. Sharing of food is not allowed and all garbage will be sent home to help keep our schools clean.

Dress your child in **weather appropriate clothing**; they may be spending more time outdoors.

Make sure your information is current at school, including **emergency contacts** and individuals authorized to pick up your child from school. And, pick up your child promptly when they are sick.

Follow your school's **local protocols**, including drop off and pick up protocols and using the designated entry doors.

Remind your child of **physical distancing** and following the flow of traffic and other measures in place at school.

Be patient and flexible as we adjust to these new measures to help keep everyone safe.
