

This is My New School  
Central Etobicoke High School

When I arrive at school, there will be staff to say “hello” to me and help me get to my class.

School emblem

When I arrive at school, I will be in proper uniform. My uniform colours are black and white. I need to be wearing either a black or white shirt with my school emblem on it.

Servery doors

Line up for food

Sit in the cafeteria  
and eat

In the morning I can go to the kitchen and get breakfast. I will need to line up and wait my turn. When I get my breakfast, I need to sit in the cafeteria and eat.

Library

Games Room

Before period 1 starts, I can go to the library or games room. Staff will be in both of these rooms. I can make friends in these safe rooms.

PA system speaker

Music

At the beginning of each period, I will hear music in the hallways and classrooms. The music comes from the PA system through the speakers. The music will remind me that class will start in a few minutes and that I need to go to my class.

I will have 4 different classes. They will be in different rooms. Some of my classes will be upstairs and others may be downstairs. I will have a different teacher for each class. This is called "rotation."

lockers

I will have a locker at school. I can put my coat, backpack, books and other things I need for school in my locker. I will have a lock on it. I can use a key lock or a number code lock. I need to go to my locker before or after school or during lunch, not between periods.

Main office

At the main office there are secretaries who can help me. I need to enter the student door and ask nicely for help. In the office, I can see the Principal, Ms. Kung or I can see my Vice-Principal Ms. Roberts.

Guidance office

If I need more help or I want to talk to someone privately, I can go see my Guidance Counsellors. Their office is next door to the main office.

Ms. Hankey - CYW

CYW office

Ms. Hankey is our school CYW. A CYW is a Child and Youth Worker. She has an office and can go into a classroom to help students. I can also make an appointment to see her privately if I need to.

Language lab

Sometimes, I can use the Language lab to help me with my work. The language Lab is a room full of computers and programs to help me learn and understand information.

Servery

Pay for lunch

Sit in the cafeteria

At lunchtime, I can go to the main cafeteria to either buy my lunch or eat my lunch that I brought from home. There are always staff in the cafeteria to help me pay and direct me where to go.

Library

Games room

Computer room

If I don't like loud noises I can talk to my Vice-Principal and ask to go to one of the smaller lunchrooms. Room 140B is a smaller and quieter place for me to eat my lunch.

I can hang out in the lunchroom until period 3 or when I am finished eating I can go to the library, games room or computer room.

Main cafeteria

At the end of the day, I will go home. If I take the bus, I need to go to the main cafeteria and sit at the table that has my bus number on it. During this time, the main cafeteria is busy and noisy. I need to sit and wait patiently for my bus to be called.

## Central Etobicoke High School

Starting high school is exciting. I may be a little nervous when I start but that is normal. Most people are nervous when they first start high school. I will learn so many new things and there will be a lot of people in the school that will help me if I need help.

When I'm at school, I will do my best and I will meet new people. High school can be lots of fun!
