RAISES THE BAR

NEW MISSION TURNS
STUDENTS TO LEADERS

RIGHT
PLACE
RIGHT
TIME!

WELCOME!

Here at Central Technical School, we believe in fostering an environment that nurtures identity, strives for academic excellence, supports personal growth, and develops a strong sense of community.

Our commitment to providing a well-rounded education is unwavering. We seek to cultivate an atmosphere where every individual is encouraged to explore their passions, develop critical thinking skills, and embrace their creativity.

Our dedicated staff work to create supportive and engaging learning environments where students can thrive academically, socially, and emotionally.

This year, as a staff we are focussed on creating assessments that honour the brilliance and diversity of our students. We're offering more voice and choice, providing descriptive feedback and multiple opportunities for success. As well, our staff and students are focussed on treating each other as precious.

We're creating spaces in which students and staff build trusting relationships so that they can learn with and from one another, take risks and explore their identities.

We aim to provide our students with the tools and skills necessary to navigate an ever-evolving world. We are dedicated to preparing our students for success both in and beyond the classroom.

I encourage students to take advantage of the diverse opportunities available at Tech. Central Technical School is like no other; we have a specialized program for visual art, a LAWS cohort starting for students in grade 10, OYAP programs for students interested in Electrical, Plumbing, Carpentry, Hospitality and Hairstyling/Aesthetics, SHSMs in the various technology fields, art and culture, law and health and wellness.

Parents, guardians and caregivers, together, we can inspire and guide our young learners to reach their full potential.

CTS is an incredible place with many opportunities. I hope you will consider entrusting us with the education and growth of your student. I know we will help make their secondary career not only successful - but memorable.

ANNE CHIRAKAL
PRINCIPAL

WHY "RIGHT PLACE, RIGHT TIME?"

Times have changed.

The diplomas and degrees that once gave permission for success won't necessarily guarantee anyone's future anymore.

Your future doesn't begin with permission. It begins with *passion*.

What interests you enough that you will explore, commit, and excel through passionate, hard work?

FIND THAT PASSION AT CENTRAL TECH!

For over 100 years, we've been providing authentic education, experience, and training in ways other schools can't.

Whether it's college, university, apprenticeship, or workplace, our large selection of specialized courses is your best chance to find *your* passionate, successful future!

A NEW DIRECTION

Last year, a working group of 12 CTS students met throughout the year to start a journey of change at CTS. Now, less than a year later, we're enacting that new vision and mission

for our school, where adults and students are working together, inside and outside of the classroom, to make CTS a place for exceptional student learning. Join us.

OUR VISION

Is that Central Technical School is a place where all students leave with:

- A love of learning
- The real-world skills to choose their next steps
- A strong sense of self and others

OUR MISSION

Central Technical School needs to be a place of:

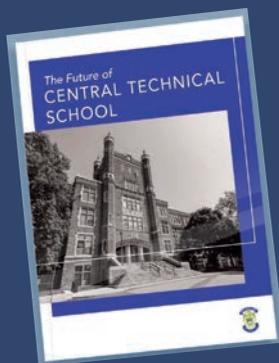

- Student-centred imagination and action
- Cultural enlightenment
- Safety

OUR STRATEGY: MAKING IT HAPPEN

We treat each other as precious

Adult knowledge and imagination to ensure a learning culture for all

Assessment that honours the brilliance and the diversity of learning journeys of students to ensure choice in their next steps and experience

Shared power and responsibility to keep what's good working, and take actions on what is not

Access to a diversity of adults to affirm the many identities of students and adults

Advocating to change the inequities in the Toronto District School Board to have the ability to make choices that best support our vision

LUCKY US, LUCKY YOU!

YOU

You're looking for a high school experience big enough to hold your dreams. You want to try it all and to test yourself while you discover yourself.

US

We're here, with new methods and attitudes. We're constantly working and adapting to help make your learning journey *yours*.

WE'RE LUCKY WE FOUND EACH OTHER!

10 REASONS YOU'RE IN THE RIGHT PLACE AT CTS

SPORTS FIELD

4 SEASON SPORTS

Our championship field is ready to play every day. Soccer,

Ultimate, Football, Track - it's all better on a forgiving surface! Lunchtime intramurals and pick-up games send kids to class sweaty but fit.

MAJESTIC BUILDINGS

TOWERING AMBITION

In 1915, Central Tech was purpose-built in the Collegiate Gothic style to honour academics while elevating the stature of skilled trades. Now, more than ever, exposure to all pathways provides the best chance of finding your brightest future, your way!

A PLACE FOR EXCELLENCE

THE HUB

Students, staff, and community partners come together to collaborate on school-wide initiatives and learning opportunities that promote inclusion, engagement, social and emotional well-being, equity, and social justice.

COURTROOM

ORDER IN THE COURT

Our L.A.W.S. Program members test their arguments in a one-of-a-kind courtroom, custom-built by Central Tech carpentry classes. Wanting the best for our students? GUILTY!

CARING COMMUNICATION

TEACHER CONTACT

Personalised notecards from teachers is a simple way to remind each other that we're a caring community. We believe in you, and your abilities, and we're here to support you every step of the way.

CLUBS FAIR

SPIRITS ARE HIGH

We think we have something pretty special going on here. There is new excitement in Student Council leadership, the Black Students Alliance, Yearbook, Pride Space, Eco Initiatives, Breakfast program and so much more. Our mascot, Blue, is exhausted!

Over 30 student clubs - something for everyone!

RESOURCE ROOM

1:1 WHEN YOU NEED IT

Who doesn't need a little help sometimes? We have support programs to help students build self-advocacy and learning skills to leverage *their* learning strengths through access to assistive technology and other resources.

MAKERSPACE

TRY OUT TECHNOLOGY

Robotics | Architecture | Digital Manufacturing | Virtual Reality | 3D Printing | Lasercutting | CNC Metalworking | Digital Printing and Binding | Immersive 3D | Motion Graphics and Video - it's all waiting for your ideas.

25 METRE POOL

IN THE SWIM

First you swim, then you race! Or play water-polo. Or certify for swim levels as a great part-time, summertime job. Swimming is just another great feature in our extensive athletics program!

LIGHT AND MAGIC

SPECIALIZED ARTS

Behind the beautiful Brutalist walls of our famous Art Centre are thoughtfully created north facing studio spaces full of natural light, ideal for drawing, painting and ceramics.

Open airy classrooms nurture connections and teamwork between students, as well as providing space to spread out and work independently in studio classes.

APPLYING TO CTS

(HOW TO GET TO THE RIGHT PLACE AT THE RIGHT TIME!)

WHICH DESCRIPTION BELOW BEST DESCRIBES YOUR SITUATION?

DESIGNATED SCHOOL BY HOME ADDRESS ADMISSIONS

Students who reside within the City of Toronto have the right to attend a school which is designated to serve their residential address.

For students whose designated school is Central Technical School, they indicate to their grade 8 school that they wish to select courses for Central Technical School on myBlueprint for grade 9. NO APPLICATION IS REQUIRED. Scan this QR code to go to the TDSB Find Your School site, to determine if CTS is one of your designated schools:

OUT OF AREA ADMISSIONS

Students also have the opportunity to access schools outside of the school that is designated to serve their home address by applying for Out-of-Area Admissions. Acceptance at these schools is subject to space availability and program suitability.

Online application form open from January 8 to January 26, 2024 at 4 p.m.

SPECIALIZED VISUAL ARTS PROGRAM ADMISSIONS

ALL STUDENTS (regardless of their home address) MUST APPLY THROUGH THE Secondary Central Student Interest Programs process.

The application window is November 6 - 24 (4pm), 2023.

All completed applications are then entered into the lottery system.

APPLYING FROM ANOTHER BOARD ADMISSIONS

The aforementioned processes apply, but those students who are outside of the TDSB must complete a TDSB registration package

REFURBISHED CHEMISTRY LAB

ACADEMICS

SCIENCE

The focus of CTS Science is to position the student - not the teacher - as Scientist, and help them discover their interest and strengths in the various fields of Science.

MATHEMATICS

WE provide all grade 9 and 10 students opportunities to meet challenges and develop their skill set in preparation for senior math courses. Our belief is that all students are capable of success and we are committed to improve our practices to ensure that the content delivered is accessible, meaningful, and challenging.

ENGLISH

We seek to develop student's expressive and receptive language skills while instilling a commitment to social justice and reconciliation. The program seeks to reflect student identities, while developing core literacy, critical thinking skills and social consciousness required for post-secondary study.

GEOGRAPHY, WORLD STUDIES AND SOCIAL SCIENCE

We aim to leverage student curiosity to build a broad base of critical knowledge and understanding of the world around and before them.

At Central Tech we recognize the importance of academic and technological education working in harmony to develop the whole student as they strive for future success.

We pride ourselves on innovative teaching that encourages students to achieve their fullest academic potential regardless of the chosen future pathway. Consequently we offer a full range of Academic (Gr. 9 & 10), College and University (Gr. 11 & 12) courses in core and elective subject areas.

RESOURCE ROOM

SPECIAL EDUCATION SUPPORTS

The Resource Program aims to help students build self-advocacy and learning skills and supports students in leveraging their learning strengths.

Resource supports include:

- Access to the Resource Room with 1:1 support
- Learning Strategies (GLE) courses
- Support from Educational Assistants
- Access to assistive technology and other educational resources

There are two other centrally assigned Special Education programs at CTS:

- Learning Disability Program
- Workplace Bound Program

We look forward to working with you!

Please contact any of the Special Education ACLs for further information:

A PASSION FOR LITERACY

ENGLISH LANGUAGE LEARNING

Central Tech is home to one of the most comprehensive English as a Second Language programs in the TDSB. We offer core classes from levels A to E. Our beginner and intermediate levels are

paired with language-support courses, which help our students acquire language more quickly and effectively.

In addition, our significant ELL (English Language Learner) population allows us to offer several ESL-supported courses in various subject areas, including math, science and Canadian history.

Additionally, we provide intensive support to newcomer students who have experienced significant gaps in education in their home countries, in our LEAP (Literacy Enrichment Academic Program) courses.

Central Tech is also home to SWIS (Settlement Workers

in Schools), who, under the auspices of Immigration, Refugees and Citizenship Canada, provide supports to newcomer students and their families.

MODERNS DEPARTMENT

Students at Central Tech are currently taking core **French** at the Grade 9 and 10 levels, and will have the opportunity to select Grade 11 French among course offerings for next school year.

A PROUD ATHLETIC TRADITION WITH UNPARALLELED FACILITIES

ATHLETICS AND LEADERSHIP

3 GYMS
SWIMMING POOL
ALL-SEASON CHAMPIONSHIP SPORTS FIELD
INVOLVED VOLUNTEER COACHES AND COMMUNITY EXPERTS

We know that high school students thrive in athletics.

Physical fitness, improved academics, community representation, social skills, career opportunities, FUN!

Our athletics programs offer challenge by choice, to build confidence and to provide a springboard to excellence.

The Athletic Leadership program offers a window into sports and recreation careers.

"I truly believe that LAWS changed my life and will forever be grateful for it."
- High School Student

Law in
Action
Within
Schools

L.A.W.S. PROGRAM

LAWS is a 3-year program that lets our students explore and experience law and justice. All of the activities are designed to help students engage better with school, develop important skills and prepare for postsecondary education.

LAWS is a partnership between the University of Toronto Faculty of Law and Osgoode Hall Law School at York University. Over 400 justice sector volunteers provide the students with an exclusive insight into the world of law.

IT STARTS IN GRADE 10

Your courses will include

Grade 10: LAWS English, LAWS Science,
LAWS History, LAWS Civics/Careers
Grade 11: LAWS English, LAWS Law
Grade 12: LAWS English, LAWS Law

UNIVERSITY OF TORONTO
FACULTY OF LAW

The Central Tech Art Program is reminiscent of the legendary German Bauhaus art movement. Students in our program will develop fundamental skills across a wide range of media, learning to produce various kinds of art concurrently, rather than favouring one medium over another.

An often noted asset of our environment is that students are not expected to have a

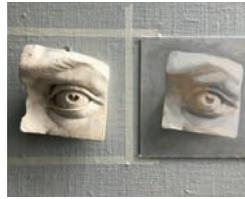

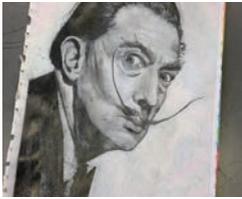

defined art style when they enter. Rather they are provided with lessons in foundational and non-traditional arts until they are ready to create more personal and stylized pieces.

There is a distinct sense of community in our classes because of the encouraging and non-competitive environment in our program. There is a joy in creating that is unmistakable.

CREATING ART IN A BRUTALIST MASTERPIECE

SPECIALIZED ARTS PROGRAM

SPECIALIZED FACILITIES

SCULPTURE ROOM AND CERAMICS

Students learn how to do subtractive and additive sculpture, make molds and casts, as well as throw and fire pottery with the help of skilled technicians. Our sculpture studio is home to the largest kiln in the TDSB, as well as the only bronze foundry in the TDSB. Our building has spaces for life modeling, casting, carving, as well as a fabrication pit for construction and welding.

DIGITAL MEDIA LAB

Students also have access to Adobe products such as Photoshop, InDesign, and Illustrator. All of these resources are used in non-traditional art classes, but are available to all art classes throughout the year.

PHOTOGRAPHY AND DARKROOMS

Students taking photography classes have access to a darkroom and different digital and film cameras.

ACCESSIBLE ART MATERIALS

At Central Tech we understand that not everyone has equal access to high quality art materials, and it is important to us that every student no matter their financial situation can participate in all lessons. Students are provided with high quality sketchbooks and pencils to take home and work in throughout the year, and are encouraged to take advantage of the various tools and materials available in class.

SPECIALIZED ART CONTINUED

OUR LEARNING ENVIRONMENT

Students attending the Central Tech art program will typically take one art class each semester – a traditional class and a non-traditional class. The art teachers at Central Tech are all skilled artists that come from many different creative backgrounds outside of teaching. With each teacher’s unique skill set comes a different way to look at art and to be taught, encouraging a wide skill set to be learned by the students as they take classes each year. Each instructor’s teaching environment is unique and allows a student to develop a well rounded set of skills and styles as an artist.

On Graduation

CAREER OPPORTUNITIES

- Actor
- Film or Video Camera Operator
- Author
- Art Curator
- Graphic Designer or Artist
- Illustrator or Animator
- Painter
- and many others!

MUSIC

Many students find their home at CTS within the music department. Steel Pan Band literally strikes a note of difference from other program offerings!

- Band (AMU102)
- Steel Pan Band (AMQ101)

TO APPLY TO SPECIALIZED ART

** ALL STUDENTS (regardless of their home address) MUST APPLY THROUGH THE Secondary Central Student Interest Programs process. The application window is November 6 - 24 (4pm), 2023. All completed applications are then entered into the lottery system.*

100+ YEARS OF TECHNOLOGY AND SKILLED-TRADES INSTRUCTION

TECHNOLOGICAL STUDIES

Tech-Ed provides students hands-on experience with technology exposes them to real-life problem solving, and enhances learning that focuses on giving young people the skills to think critically.

WHY TECH-ED?

- Suits *your* interests and talents
- Develops specialized knowledge and skills
- Develops essential skills and work habits
- Gain sector-recognized certification and credentials
- Identify, explore and refine career goals

YOUR INSTRUCTORS

- Dedicated teachers from industry with advanced certifications and authentic experience with a goal to engage students!

Did you know

By 2026, it's estimated that as many as one in five jobs openings in Ontario will be in skilled trades. Ontario is also expected to face a shortfall of 100,000 construction workers over the current decade. **There were** 17,865 job vacancies for computer and information systems professionals in Ontario in early 2022, reflecting current demand for computer science and technological-based jobs.

100+ YEARS OF TECHNOLOGY AND SKILLED-TRADES INSTRUCTION

O.Y.A.P. - ONTARIO YOUTH APPRENTICESHIP PROGRAM

GET READY TO EARN IN YOUR FINAL YEAR OF HIGH SCHOOL

School is okay, but it could be okay-er? What if, in your last year of high school, you could train for free to be the kind of skilled tradesperson that employers want to HIRE into well-paying, secure, skilled-trades careers?

OYAP is a program that opens the door to work in apprenticeship occupations through the co-operative education program. Students can become registered apprentices and work towards becoming certified journeymen in a skilled trade while completing their secondary school diplomas.

OYAP Programs at CTS

- AUTOMOTIVE
- CARPENTRY
- ELECTRICAL
- PLUMBING

meet Adam,
future **MECHANIC**

I like cars. Cars are my thing. I'm going to make my career about cars. No cap.

meet Sophie,
future **CARPENTER**

Once I become a finish carpenter, I'm going to start investing and flipping property. No desk job for me.

meet Marcus,
future **PLUMBER**

My dad thinks I'm apprenticing to join his business. Nah. I'm starting my own ASAP.

meet Kioni,
future **ELECTRICIAN**

I talked to an electrician about the work and pay and now I'm like "how quickly can I get started?"

Why take this program at Central Tech?

- *No college tuition fees! Save \$\$\$!*
- *One semester of tech classes to prepare you for success*
- *One semester of unpaid co-op where you become a registered apprentice*
- *Chance of paid employment upon completion of the co-op placement*
- *Course work is taught at a pace tailored to meet student needs*

100+ YEARS OF TECHNOLOGY AND SKILLED-TRADES INSTRUCTION

SHSM - SPECIALIST HIGH SKILLS MAJORS

These innovative programs let high school students in Grades 11 and 12 focus on a career path that matches their skills and interests while earning their Ontario Secondary School Diploma.

Through specialized programming, students are given the opportunity to reach ahead and experience relevant training and learning specific to their sector of study.

Our students will participate in a variety of experiential learning opportunities in the community and complete several sector-specific certifications.

Students who successfully complete all requirements earn a special seal on their diploma and receive a record card outlining the specialized courses and certifications they have earned.

A SHSM assists students in their transition from secondary school into apprenticeship training, college, university or the workplace.

On Graduation

Students who complete the requirements for the OSSD and SHSM will receive an OSSD with an **embossed SHSM seal** on it. Credits earned towards the SHSM are indicated on the Provincial Report Card, and completion of the SHSM is recorded on the Ontario Student Transcript (OST). In addition, students receive an SHSM Record outlining their achievement in the five required components.

SHSM Programs at CTS

Specialist High Skills Major (SHSM) programs are available at CTS in 7 sectors including:

- ARTS AND CULTURE
- CONSTRUCTION
- HEALTH AND WELLNESS
- HOSPITALITY AND TOURISM
- INFORMATION AND COMMUNICATIONS TECHNOLOGY
- JUSTICE, COMMUNITY SAFETY, AND EMERGENCY SERVICES
- TRANSPORTATION

** Students in SHSM programs typically have higher graduation rates than their non-SHSM counterparts!*

WHAT'S YOUR (HIGH SKILLS) MAJOR?!

ARTS AND CULTURE AT CTS

The Arts and Culture sector offers opportunities for students to get inspired and use their unique skills and abilities to explore visual arts, drama and performance, technical theatre, media arts, design, dance, music, arts and technology and many other creative areas. This Specialist High Skills Major program engages students in authentic learning and experiences that will be an asset for a future in the arts.

CONSTRUCTION AT CTS

The Construction Industry is diverse and offers the opportunity to participate in all kinds of projects such as office buildings, plants, schools, roads, hydroelectric dams, hospitals, churches, houses and tunnels. Large or small, these projects are designed, managed and built—carefully and capably – by people with the ingenuity, skill and education to create the buildings of tomorrow.

HEALTH AND WELLNESS AT CTS

The demand for professionals in the Health and Wellness sector in Ontario and across Canada is increasing as the age of our population increases. As such, this sector has a wide variety of career opportunities and employs close to two million people across Canada. Kinesiologist, child care worker, fitness instructor, nurse, veterinary technician, hospital porter and medical technician are just some of the numerous occupations that the SHSM Health and Wellness program prepares students to pursue.

HOSPITALITY AND TOURISM AT CTS

The five tourism industries in Canada include opportunities in hospitality and tourism, accommodation, food and beverage services, recreation and travel services. Tourism in Ontario is a dynamic, growing sector. Prospects for satisfying employment and career advancement in the hospitality industry have never been better, locally and worldwide.

INFORMATION AND COMMUNICATIONS TECHNOLOGY AT CTS

Information and Communications Technology is one of the fastest growing sectors in Ontario. ICT offers students an opportunity to specialize and gain qualifications in careers such as multimedia production, computer science, computer engineering, robotics, game design, audio engineering, app development, video and film production, broadcast journalism, graphics, photography, animation, web development, coding, architectural/mechanical/ interior design, web design, software design, electronics and programming.

JUSTICE, COMMUNITY SAFETY AND EMERGENCY SERVICES AT CTS

Provincial and national events such as devastating ice storms, wildfires, terrorist acts, tornadoes and vehicle accidents have raised public and government recognition of the vital role of Justice, Community Safety and Emergency Services in ensuring the safety of Ontarians. Ontario now has some of the most rigorous community safety legislation in North America and governments, NGOs, and private enterprise have all greatly enhanced their efforts to ensure the public's safety and security.

TRANSPORTATION AT CTS

Transportation is essential to our everyday life. Different modes of transportation including air, rail, road, water, cable, pipeline and space provide many career options for those interested in the field. In particular, skilled automotive service technicians are in great demand and require a breadth of knowledge from seat-belt systems to the latest diagnostic equipment.
