A. Elements of Risk

The risk of injury exists in every athletic activity. Falls, collisions, and other incidents may occur and cause injury. Due to the nature of some activities, injuries may range from minor sprains and strains to more serious injuries affecting the head, neck or back. Some injuries can lead to paralysis or prove to be life-threatening. These injuries result from the nature of the activity and can occur without fault on either the part of the student or the School Board or its employees or agents of the facility where the activity is taking place. By choosing to participate in these activities, students are assuming the risk of an injury. The chances of an injury can be reduced by carefully following instructions at all times while engaged in the activity. The TDSB attempts to manage as effectively as possible the risk involved for students while participating in school athletics.

The Toronto District School Board does not provide any accidental death, disability, dismemberment, or medical expenses insurance on behalf of students participating in these activities. Student accident insurance is available to provide coverage beyond that allowed by the Ontario Health Insurance Plan. Contact the school for specific information and application forms.

B. Medical Information

You are urged to consult your family doctor prior to your son or daughter participating in interschool athletic activities. If your child has, or has had, any health problems that might affect his/her participation or safety, please provide details in writing below.
