One of the most important things we can do to slow the spread of COVID-19 in our schools, is for [students](#) to screen themselves daily for any symptoms of COVID-19 and also follow the circumstances in which they should stay home.

Students and families will need to screen themselves each morning.

Parents should sign their child's [TDSB Student Health Pass](#) **daily** before arriving at school. **Their child will need to present this to their teacher each morning.**

For more information, please contact your health care provider or Telehealth Ontario at [1 866-797-0000](tel:18667970000).

* Fully vaccinated means 14 days or more after getting a second dose of a two dose COVID-19 vaccine series or one dose of a single dose series.

**Anyone who is sick or has any symptoms of illness should stay home and seek assessment from their health care provider if needed.

This revised Toronto Public Health screening does take into account COVID vaccine status of students (aged 12+).

This revised Toronto Public Health screening does indicate that if family members experience one or more of COVID-19 symptoms then the student should also stay home, and self isolate.

Together we can help our community, school, students and staff be safe and healthy!
We can do this together!

TDSB Student Health Pass

Review this COVID-19 checklist daily with your child. Sign* below each day to confirm that your child or anyone else in the household does not have any symptoms or have other exposure to COVID-19. We all have a role in keeping our schools safe and healthy.
