TRANSITION:

There will be discussion around how the character of DAVISVILLE can be brought to the temporary school, and how the students, staff and parent community can reinforce their identity during the transition period.

There will also be interim events in the new year to allow the school community to become familiar with VAUGHAN.

Status of the bus plan – drop-off & pick-up locations and schedules:

School staff have reviewed current operations at other schools and will incorporate lessons learned into a bus transfer strategy that is appropriate for the DAVISVILLE community.

TDSB Transportation update – plans continue to be revised / more detailed scenarios based on input from school & community.

TRANSITION:

DEMOLITION:

Saying goodbye –leaving the old school:

As the current building closes, TDSB and the school community will reflect on what should be preserved and archived to retain a long term record of the school. This is an extension of something that has been done previously – an acknowledgement that this project is the latest in a series of replacement schools over time on this site.

There will be discussion around the environmental concerns associated with demolition. This area will allow us to present the protocols the TDSB follows. These will be links to web-sites along with an overall summary

CONSTRUCTION:

This section is currently empty, but will become increasingly crowded. This will allow progress of work to be documented in the coming year.
