

2021-2022

Choices

SECONDARY SCHOOLS
COURSE SELECTION & PLANNING GUIDE

Choices

Our Mission

is to enable all students to reach high levels of achievement and to acquire the knowledge, skills and values they need to become responsible members of a democratic society.

We Value

- Each and every student
- A strong public education system
- A partnership of students, schools, family and community
- The uniqueness and diversity of our students and our community
- The commitment and skills of our staff
- Equity, innovation, accountability and accessibility
- Learning environments that are safe, nurturing, positive and respectful

Strategic Directions

- Make every school an effective school
- Build leadership within a culture of adaptability, openness and resilience
- Form strong and effective relationships and partnerships
- Build environmentally sustainable schools that inspire teaching and learning
- Identify disadvantage and intervene effectively

Introduction

Dear Student,

Planning for high school is an exciting time!

Over the next four years, you will have an opportunity to explore new opportunities, learn from a variety of people and perspectives and connect with the world in new ways. This is a time to ask questions, consider your strengths, interests and goals as you discover more about yourself and make important decisions about your future goals. It is important that you make selections, each year, that align with your current interests and goals and preserves your ability to pursue different programs and pathways in high school and beyond.

I am confident that you have the skills needed to thrive in high school and the critical thinking, communication and collaboration skills you have learned will serve you well. And, your school, educators and other staff and parents/guardians are here to support you on your educational journey and will help prepare you for whatever post-secondary path you choose.

This guide is full of valuable information about the many learning opportunities available to you in the Toronto District School Board and includes an outline of the step-by-step course selection process. Please use it as a resource as you take your next steps forward.

I wish you great success in high school and beyond.

A handwritten signature in black ink that reads "Ms. Russell-Rawlings".

Getting Started

Choices: Secondary Schools Course Selection & Planning Guide is published online to encourage parents/guardians* and students to keep themselves informed about the opportunities available to them, both in and beyond secondary school. It is the goal of this publication to provide information that will help with the decision-making process that must occur around the course selection process.

Planning Guide

There is a course selection planning section to assist students and their parents/guardians with the course selection process. Students are encouraged to use this guide and keep it, where possible, in their career/life portfolio. Also visit www.myBlueprint.ca/tdsb.

Course Selection Process

Course selection for students under the age of 18 must be made with parent/guardian approval. Therefore, keeping in touch with the school's Guidance Counsellor or Grade 8 Teacher is of great importance.

Course Selection Sheet or myBlueprint Online

Program selection for September will be made in January or February. Course Selection will take place via myBlueprint (online). Courses offered at your secondary school will be listed on myBlueprint. Planning courses is important and students should take it seriously. An Individual Pathway Plan (IPP) needs to be completed each year and regularly reviewed, as plans and destinations may change over time. It is the responsibility of all students and their parents/guardians to complete course selections by the date prescribed by the school. Subsequent modifications to a student's program will be made for sound educational reasons only. Please note that where enrolment is insufficient, a course may be withdrawn or cancelled.

Learning to 18

Ontario Ministry of Education requires students to attend school until they reach the age of 18 or until they have obtained an Ontario Secondary School Diploma (OSSD).

Ontario Guidance Program

Ontario Schools, Kindergarten to Grade 12: Policy and Program Requirements, 2016 (often referred to as OS), describes the three areas of learning that constitute the Ontario guidance and career education program, as follows:

- Student development – the development of habits and skills necessary for learning.
- Interpersonal development – the development of the knowledge and skills needed in getting along with others.
- Career development – the development of the knowledge and skills needed to set short-term and long-term goals in planning for the future. (*Creating Pathways to Success*, page 4)

Creating Pathways to Success: An Education and Career/Life Planning Program for Ontario Schools – Policy and Program Requirements, Kindergarten to Grade 12, 2013 (referred to as CPS) is designed to support all three areas of learning as they relate to education and career/life planning. This is a school-wide program delivered through instruction linked to the curriculum and through broader school programs and activities. This program is designed to support students in becoming competent, successful and contributing members of society. The focus of the program enables students to complete secondary school in four years and make a successful transition to their initial postsecondary destination.

The program's effectiveness will be determined by monitoring the implementation and finding evidence of the program in students' Individual Pathways Plan (IPP), gauging students' awareness of personal strengths and needs and gathering evidence from exit surveys completed by students. (*Creating Pathways to Success*, page 40)

For additional information, visit www.tdsb.on.ca/HighSchool/Guidance

Choices Secondary Schools Course Selection & Planning Guide

* Where parent/guardian is found, it is inclusive of caregivers and a significant adult.

Creating Pathways to Success

An Education and Career/Life Planning Program* to Support Student Success Program Goals

What students believe about themselves and their opportunities, and what their peers and the adults in their lives believe about them significantly influences the choices they make and the degree to which they are able to achieve their goals. The education and career/life planning policy for Ontario schools is based on the belief that all students can be successful, that success comes in many forms, and that there are many different pathways to success. The policy is founded on a vision in which all students leave secondary school with a clear plan for their initial postsecondary destination— whether it be apprenticeship training, college, community living, university, or the workplace—and with the confidence that they can revise their plans as they, and the work around them, change. This vision sees students as the architects of their lives.

The goals of the Education and Career/Life Planning Program are to:

- ensure that students develop the knowledge and skills they need to make informed education and career/life choices;
- provide classroom and school-wide opportunities for this learning; and
- engage parents and the broader community in the development, implementation, and evaluation of the program, to support students in their learning.

Program Framework

The framework of the Education and Career/Life Planning Program is a four-step inquiry process based on four questions linked to four areas of learning—Who am I? (Knowing Yourself); What are my opportunities? (Exploring Opportunities); Who do I want to become? (Making Decisions and Setting Goals); and What is my plan for achieving my goals? (Achieving Goals and Making Transitions). The steps are not necessarily sequential—throughout their school years and throughout their lives, students will continually explore, assess, and reassess their knowledge of themselves, their opportunities, their goals, and their plans for achieving their goals.

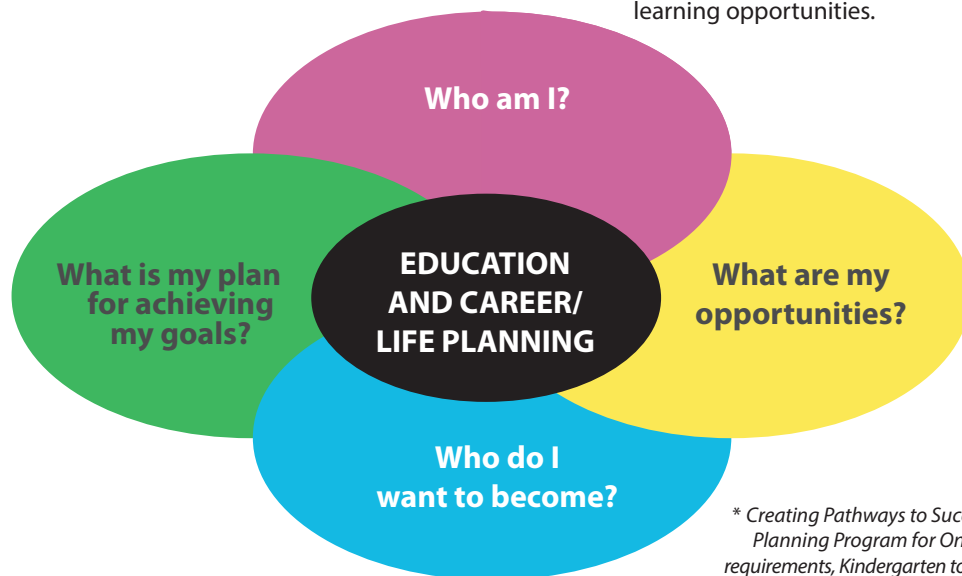

Individual Pathways Plan (IPP)

Students will need to create and maintain an Individual Pathways Plan (IPP) during Grades 7 to 12. The IPP becomes the planning tool for course selection, goal setting and postsecondary destination planning.

The Toronto District School Board has provided its students with an electronic version of the IPP through www.myBlueprint.ca/tdsb. The IPP Tracker provides grade-specific activities to complete in order to build an effective education plan annually.

Postsecondary Transition Planning

As students move through secondary school, they need to begin to focus on an initial destination with regard to education, training, the workplace or community living. During the course selection process, students research and select their courses in order to reach this initial destination. Their plan needs to reflect their achievement, information on postsecondary opportunities, a financial plan, employment opportunities, job search skills and career exploration and experiential learning opportunities.

* *Creating Pathways to Success: An Education and Career/Life Planning Program for Ontario Schools— Policy and Program requirements, Kindergarten to Grade 12, 2013* (referred to as CPS)

Creating Pathways to Success

Message to Parents/Guardians

Use these four inquiry questions to have conversations with your child. Encourage them to discover their interests, explore opportunities open to them, create future goals and construct a plan for how to achieve them.

EDUCATION AND CAREER/LIFE PLANNING: A FOUR-STEP INQUIRY PROCESS	
Inquiry Question	Area of Learning (Knowledge and Skills)
Who am I?	<p>Knowing Yourself</p> <p>To help answer the question “Who am I?”, students will:</p> <ul style="list-style-type: none"> • identify the characteristics that describe who they are, and create and maintain a personal profile that reflects those characteristics (e.g., interests, strengths, intelligences, accomplishments, values, and skills, including the learning skills and work habits evaluated on the provincial report cards and the Essential Skills described in the Ontario Skills Passport (OSP); • identify factors that have shaped who they are and that are likely to shape their profile over time; • reflect on how the characteristics described in their profile influence their thoughts and actions, and how those thoughts and actions may in turn affect their development as a learner, their relationships, and their education and career/life choices.
What are my opportunities?	<p>Exploring Opportunities</p> <p>To help answer the question “What are my opportunities?”, students will:</p> <ul style="list-style-type: none"> • explore the concept of “opportunity” and how the choices they make can open pathways for them; • identify co-curricular and community-based opportunities (e.g., recreational, social, leadership, volunteer, part-time employment); • investigate a variety of fields of work, occupations, and jobs, as well as the potential impact of local and global trends (e.g., demographic, technological, economic, social) on the opportunities available to them; • investigate the preparation required for a variety of co-curricular and community-based opportunities, occupations, and jobs (i.e., acquiring the necessary experience, education/training, and specific skills, including the Essential Skills and work habits documented in the OSP) and how this preparation can be obtained.
Who do I want to become?	<p>Making Decisions and Setting Goals</p> <p>To help answer the question “Who do I want to become?”, students will:</p> <ul style="list-style-type: none"> • identify the demands, rewards, and other features of the various opportunities they have explored, and reflect on the fit between those features and the characteristics they have described in their personal profile; • based on the connections they identify, use a decision-making process to determine personal and interpersonal goals as well as education and career/life goals; • review and revise their goals in light of any changes that may arise in their personal profile and in the opportunities that are available to them.
What is my plan for achieving my goals?	<p>Achieving Goals and Making Transitions</p> <p>To help answer the question “What is my plan for achieving my goals?”, students will:</p> <ul style="list-style-type: none"> • create a plan that identifies in detail the steps required to achieve the goals they have set; • identify the resources required to implement their plan; • identify potential obstacles and challenges they may encounter in implementing their plan, and devise possible solutions.

(Creating Pathways to Success, page 15)

The Journey: myBlueprint

myBlueprint* is an online resource available to all TDSB students (Grade 7 to 12) and families that lets you plan high school courses, complete the Individual Pathways Plan (IPP), research postsecondary opportunities and occupations, build a resume or cover letter, discover interests and learning styles and lots more.

The easiest way to plan your education and career

Who Am I

Six comprehensive interest and career assessments

Goals

Create S.M.A.R.T. goals and a plan of action to stay on track

Resumes & Cover Letters

Record experiences and export them for school or work

Post-Secondary

Research the opportunities available in every pathway

Occupations

Compare extensive information on careers across Canada

Money

Improve financial literacy and build an interactive budget

High School

Plan to graduate and discover the impact of course selections

Portfolios

Upload and share photos, files, and videos to multiple portfolios

Guides

Information on topics related to education and career/life planning

Building Character

Build Character

Character development at the TDSB is about helping students learn and practice positive character attributes. When we build good character, we build strong communities. In the school community, character development is woven into programs and practices and it becomes a way of life. Student success is dependent on a safe, caring and inclusive learning environment where all students feel valued. This starts by teaching our students about the value of character – respecting themselves and each other, making positive contributions to their school and community and thinking critically and creatively.

Character Development:

- Develops the whole student
- Contributes to a healthy, safe and orderly school environment
- Creates a collaborative school where the teaching and learning can be the focus
- Provides high expectations for learning and behaviour
- Engages students in their learning
- Is universal
- Is respectful
- Strives for an ever growing depth of self-awareness, self-discipline and understanding

Go to: www.tdsb.on.ca/Character

Student Success

Student Success is about meeting the individual learning needs of each and every student. This includes understanding their learning style, capitalizing on their strengths, abilities and interests. Schools are providing students with more opportunities to customize their high school experience.

Every secondary school in Ontario now has a team comprised of a principal, a Student Success teacher, special education teacher, and a guidance counsellor. Together, they:

- Identify and support students
- Provide more options for learning
- Monitor student progress

Other opportunities to support Student Success include:

Grade 8 to 9 Transition

Student Success Teams

Credit Recovery/Rescue

Dual Credit Program

Expanded Co-op Credits/OYAP

Specialist High Skills Major

Student Voice

How do I find out more? If you are interested in any of these programs contact your guidance counsellor and/or Student Success Teacher to find out which opportunity may be available at your school.

More information is available at:

www.edu.gov.on.ca/MoreStudentSuccess

BUILD CHARACTER
BUILD SUCCESS

Respect Responsibility Empathy

Kindness & Caring Teamwork Fairness

Honesty Co-operation Integrity Perseverance

TDSB Centre of Excellence for Black Student Achievement

The Centre of Excellence for Black Student Achievement is the first of its kind in public education in Canada. It is dedicated to improving the experiences and outcomes for Black students and aims to be responsive to the voices of Black communities who continue to advocate for systemic change within educational institutions and for dismantling anti-Black racism at the TDSB. The Centre of Excellence for Black Student Achievement offers a variety of programs, initiatives and engagement opportunities for students and families. Program offerings are designed to fulfill the [Mandates of the Centre of Excellence for Black Student Achievement](#). Furthermore, in partnership with students, families, community members, Elders and staff, The Centre of Excellence for Black Student Achievement shares resources that support Black student achievement, well-being and belonging. For more information, please visit: www.tdsb.on.ca/cebsa.

Build Your Future

Career/Life Development

A career is your path through life. It includes education, learning, different jobs, work (paid and unpaid), family life, friendships, community activities and leisure activities. Career development requires students to understand themselves and opportunities in both the world and workplace so that when presented with opportunities they are prepared to make decisions about their future.

Career development requires students to learn how to make informed choices to ensure their successful transition from elementary to secondary school and from secondary school to further education, training, and work. It involves understanding self, goal setting, decision making and opportunity awareness.

The workplace is rapidly changing. As existing jobs become more complex and new jobs demand increased levels of education, career development is more critical than ever before. *The reality is that the challenges and opportunities faced by students in this century are unlike those of any previous generation, and that all students today require specific knowledge and skills in education and career/life planning to support them in making sound choices throughout their lives. (Creating Pathways to Success, page 6)*

What is a Job?

A job is the position a person holds doing specific duties. For example, consider the occupation of a doctor. The doctor's job is working at Toronto General Hospital. People usually change jobs more often than they change occupations.

What is an Occupation?

An occupation is similar work for which people usually have similar responsibilities and develop a common set of skills and knowledge. Occupational titles include: cashier, chef, insurance agent, nurse, teacher, etc.

What is a Career?

A career is your life path or life story in progress. It includes, learning, work (paid and unpaid), family life, friendships, community and leisure activities.

Go to

www.tdsb.on.ca/BUILDYOURFUTURE

High Five

1 Change Is Constant

We change constantly, and so does the world around us — including the working world. Chances are that a single occupation will no longer take workers from the beginning to the end of their working lives. Adaptability is an important skill to carry into the world of work.

2 Learning Is Ongoing

Graduating from high school or a post-secondary program doesn't mean that your education is complete. Education is not limited to classrooms in a school. Opportunities to learn are everywhere! Learn to recognize them and make your learning a lifelong experience.

3 Focus on the Journey

Travelling through life is like travelling down a road: having a destination gives direction, but most of the time is spent moving along. Pay attention to the journey, with all of its pitfalls, sidetracks, opportunities, and highways to new destinations.

4 Follow Your Heart

Dreaming about your future can help you to understand what you really want in life. Knowing what you want and keeping it in mind can give you the motivation you need to deal with life's challenges. Listen to your inner voice.

5 Access Your Allies

The journey of life is not taken alone. Life is like a team sport, and your team members are your friends, family, teachers, and neighbours. Any of them can be willing and helpful allies when it comes to deciding what steps to take on life's path.

Policies & Practice

Equity & Inclusion in Education

The Toronto District School Board has policies and procedures to ensure that students have equity of access to learning opportunities. For students to achieve their full potential, the education system must be free from discrimination and must provide all students with a safe and secure environment so that they can participate fully and responsibly in the educational experience. The implementation of these principles influences all aspects of school life. It promotes a school climate that encourages all students to strive for high standards, affirms the worth of all students, and helps them strengthen their sense of identity and develop a positive self-image. It encourages staff and students to value and show respect for diversity in the school and in the larger community.

Learning activities are designed to help students develop a respect for human rights and dignity and to develop a sense of personal, social, and civic responsibility. These activities reflect diverse points of view and experiences and enable students to learn about the contributions of a variety of peoples, in the past and the present, to the development of Canada. Students are encouraged to think critically about aspects of their own and their peers' backgrounds and to become more sensitive to the experiences and perceptions of others.

TDSB Equity Foundation Statement

The TDSB values the contribution of all members of our diverse community of students, staff, parents/guardians and community groups to our mission and goals. We believe that equity of opportunity, and equity of access to our programs, services, and resources are critical to the achievement of successful outcomes for all those whom we serve, and for those who serve our school system.

Caring & Safe Schools

The Toronto District School Board is committed to creating school learning environments that are caring, safe, peaceful, nurturing, positive, and respectful and that enable all students to reach their full potential.

When a school has a positive climate, all members of the school community feel safe, included and accepted; positive behaviours and interactions with each other are actively promoted. Students are expected to demonstrate respect for human rights and social justice and promote the values they need to become responsible members of society.

Caring & Safe Schools information is available on the Toronto District School Board website at: www.tdsb.on.ca click on **High School** and go to **Caring and Safe Schools**.

The Board code of Conduct is available at: www.tdsb.on.ca/About-Us/Policies-Procedures-Forms/Detail/docId/1714

All TDSB Schools adhere to the following Ministry Policies:

- *Ontario Schools, Kindergarten to Grade 12: Policy and Program Requirements, 2016 (OS)*, which outlines all policy related to secondary education in the province of Ontario.
- *Creating Pathways to Success: An Education and Career/Life Planning Program for Ontario Schools, 2013 (CPS)*, which describes the career development policy designed to help students achieve their personal goals and become competent, successful and contributing members of society (page 2).
- Curriculum policy documents, which outline the requirements for study in each subject available in Grades 9 and 10 and Grades 11 and 12.
- *Growing Success: Assessment, Evaluation, and Reporting in Ontario Schools, First Edition, Covering Grades 1 to 12 (2010)*.
- *Ontario First Nation, Métis and Inuit Education Policy Framework (2007)*

The diploma requirements for students is carefully outlined on page 31 of this publication. Students and their parents/guardians are responsible for ensuring that they adhere to these requirements, and that they give careful consideration each year to the educational planning process. All Ministry of Education documents are available at www.edu.gov.on.ca.

TDSB Urban Indigenous Education Centre

The Urban Indigenous Education Centre offers a range of services for First Nation, Métis and Inuit students and families, including wholistic approaches that enhance Aboriginal student success and well-being. It also provides ongoing guidance and support for TDSB staff that work with Aboriginal students and communities. The Centre utilizes a wholistic approach to enhance the overall achievement of First Nation, Métis and Inuit students throughout the TDSB.

The Urban Indigenous Education Centre seeks to create more inclusive teaching and learning environments that enhance the education of all students in the TDSB by promoting the infusion of Aboriginal perspectives, histories and cultures across the curriculum for all students.

For more information: www.tdsb.on.ca/Community/Indigenous-Education

Policies & Practice

Special Education Programs

Recognizing the identity and lived experiences of students with Special Education Needs and designing programs that respond effectively to their needs are important and essential aspects of program planning to which the Toronto District School Board staff are committed. The Board provides a wide range of program options for students with special education needs, including the Learning Strategies Course (GLE) for students with an Individual Education Plan (IEP). After an Identification, Placement, and Review Committee (IPRC) identifies a student as exceptional, an (IEP) is developed and maintained for that student. An IEP may also be developed for students who are receiving Special Education programs and/or services and not formally identified as exceptional by an IPRC.

The IEP is based on a thorough analysis of the student's strengths, areas of growth, and interests. It will identify what the student is expected to learn and will explain how the Special Education program and/or services will help the student achieve those learning goals and expectations. The IEP will also outline a coordinated plan for supporting students when making transitions. Further information can be obtained from the secondary school Special Education personnel or from the Guidance or Student Services department or www.tdsb.on.ca/Leadership-Learning-and-School-Improvement/Special-Education.

SEAC - Special Education Advisory Committee

This committee consists of representatives from local associations, community representatives, and trustees all appointed by the TDSB. SEAC members are available as a resource for parents of students with special education needs. All interested parents, guardians and members of the public are invited to attend SEAC meetings.

Further information concerning SEAC can be obtained by visiting: www.tdsb.on.ca/Leadership-Learning-and-School-Improvement/Special-Education > click **Special Education Advisory Committee (SEAC)**

Student Planners

Many schools use student planners (paper or digital) as important communication vehicles. Planners contain valuable information regarding upcoming events, Code of Conduct, examination protocol and information regarding co-curricular and extra-curricular activities. These publications are extremely useful time management tools and where available, their use needs to be encouraged.

Student planners also contain TDSB common pages about the homework policy, code of online conduct, etc.

Students who have an IEP or identified exceptional by an IPRC may receive the following support:

ACCOMMODATION

These may be in the form of individualized teaching and assessment strategies, human supports, and/or individualized equipment required to enable a student to learn and demonstrate their learning.

Accommodations allow the student to participate in learning without any changes to the knowledge and skills the student is expected to demonstrate.

The provincial curriculum expectations for the grade are not altered for a student receiving accommodations.

MODIFICATION

Modifications are changes made in the age-appropriate grade-level expectations for a subject or course in order to meet a student's learning needs.

Such changes may include expectations from a different grade level, a decrease in the number and/or complexity of learning expectations, and measurable and observable performance tasks. At the secondary level, a credit may or may not be granted for a course, depending on the extent to which the expectations in the course have been modified.

TDSB Student Senate Captivate • Motivate • Initiate

The TDSB Student Senate is a group of 20 democratically elected students from all over TDSB. The Senate's main goal is to bring a student voice to the Boardroom.

There are monthly regional meetings in the TDSB regions/quadrants. Through these meetings students can voice their opinions and ideas. The student voice then goes through the Senate and into the Boardroom through two Student Trustees.

Student Senate also hosts events, such as the Elections Conference and Grade 9 and 10 Leadership Retreat. The Senate and student voice has initiated items including the Student Leadership Policy, SAC Handbook, Homework Moratorium Policy.

Get involved! Attend the meetings and events and learn more about the opportunities that Senate can offer. Visit www.tdsb.on.ca/High-School/TDSB-Student-Senate or join the TDSB Student Senate Facebook group.

Assessment & Evaluation of Student Achievement

Levels of Achievement

The achievement chart identifies four levels of achievement, defined as follows:

Level 4 (80 to 100%) identifies achievement that surpasses the provincial standard. The student demonstrates the specified knowledge and skills with a high degree of effectiveness.

Level 3 (70 to 79%) represents the provincial standard for achievement. The student demonstrates the specified knowledge and skills with considerable effectiveness.

Level 2 (60 to 69%) represents achievement that approaches the provincial standard. The student demonstrates the specified knowledge and skills with some effectiveness. Students performing at this level need to work on identified learning gaps to ensure future success.

Level 1 (50 to 59%) represents achievement that falls much below the provincial standard. The student demonstrates the specified knowledge and skills with limited effectiveness.

Below 50: The student has not demonstrated the required knowledge and skills. Extensive remediation is required.

Academic Honesty

It is the intention of the TDSB to provide a consistent and fair approach to dealing with instances of academic dishonesty, specifically with plagiarism and cheating. To ensure academic honesty and avoid instances of plagiarism, it is the student's responsibility to understand what actions constitute plagiarism, as well as the penalties that correspond to academic dishonesty and plagiarism. Direction to staff and students on this issue are described in the Academic Honesty Procedure (PR 613) found at the Policies, Procedures and Forms www.tdsb.on.ca/About-Us/Detail/docId/1783

*Not all things that count can be counted.
Not all things that are counted count.*

Our responsibility as educators is to be accountable for things that count.

Growing Success: Assessment, Evaluation, and Reporting in Ontario Schools, First Edition, Covering Grades 1 to 12 (2016) clarifies, coordinates, and consolidates the various aspects of the policy, with the aim of maintaining high standards, improving student learning, and benefiting students, parents/guardians and teachers in elementary and secondary schools across the province.

The Seven Fundamental Principles of Assessment and Evaluation:

To ensure that assessment, evaluation, and reporting are valid and reliable, and that they lead to the improvement of learning for all students, teachers use practices and procedures that:

- are fair, transparent, and equitable for all students;
- support all students, including those with special education needs, those who are learning the language of instruction (English or French), and those who are First Nation, Métis, or Inuit;
- are carefully planned to relate to the curriculum expectations and learning goals and, as much as possible, to the interests, learning styles and preferences, needs, and experiences of all students;
- are communicated clearly to students and parents/guardians at the beginning of the school year or course and at other appropriate points throughout the school year or course;
- are ongoing, varied in nature, and administered over a period of time to provide multiple opportunities for students to demonstrate the full range of their learning;
- provide ongoing descriptive feedback that is clear, specific, meaningful, and timely to support improved learning and achievement;
- develop students' self-assessment skills to enable them to assess their own learning, set specific goals, and plan next steps for their learning.

Assessment & Evaluation

The primary purpose of assessment and evaluation is to improve student learning.

Assessment is the process of gathering information that accurately reflects how well a student is achieving the curriculum expectations in a subject or course. Assessment is seen as both **assessment for learning**, a process which determines where students are in their learning and where they need to go, and **assessment as learning** which focuses on the explicit fostering of students' capacity over time to be their own best assessors.

Evaluation refers to the process of judging the quality of student learning on the basis of established performance standards and assigning a value to represent that quality (*Note Levels of Achievement*). Evaluation accurately summarizes and communicates to parents/guardians, other teachers, employers, institutions of further education, and students themselves what students know and can do with respect to the overall curriculum expectations. Evaluation is based on **assessment of learning** that provides evidence of student achievement at strategic times throughout the grade/course, often at the end of a period of learning.

As referenced from *Growing Success*. For the entire document, visit www.edu.gov.on.ca/eng/policyfunding/GrowSuccess.pdf.

Reporting

The Credit System

A credit is granted when a course that has been scheduled for a minimum of 110 hours is successfully completed (a mark of 50% or more). “Scheduled time” is defined as the time during which students participate in planned learning activities designed to lead to the achievement of the curriculum expectations of the course.

Failure to Complete Courses

If a student has completed a course, but has failed to achieve the curriculum expectations at a passing level, no credit will be granted. At this time, staff will determine the best way to enable the student to earn a credit for the course, in consultation with the student and parents/guardians. This may be done at summer school, through an individualized remediation program, credit recovery or by repeating the entire course.

Withdrawal from a Course

If a student in a Grade 11 or 12 course withdraws after five instructional days following the issue of the second to last provincial report card, the withdrawal is recorded on the Ontario Student Transcript (OST). The percentage grade at the time of the withdrawal is recorded. If a student withdraws before the five instructional days following the issue of the second to last provincial report card, the withdrawal is not recorded on the OST. (*The Ontario Student Transcript* (2010), page 12)

Provincial Report Card

The standard Provincial Report Card includes the following information:

- each course that the student is studying;
- the student’s mark expressed as a percentage grade, along with the course median;
- number of classes missed and times late for class;
- the student’s achievement in six learning skills;
- an anecdotal comment from each subject teacher with a focus on what students have learned, including significant strengths, and identified next steps.

The report card will include information with respect to a student’s Individual Education Plan (IEP) where appropriate. The report card will also indicate whether a course has been adapted to meet the needs of students who are learning English as a Second Language or need assistance with English Literacy Development.

Student progress is generally reported at mid-term or mid-semester and completion of the year. A Response Form is included for student and parent/guardian comment. A summary of credits earned to date, including a break-down of compulsory and optional credits, is provided at the end of the final report card of the year or semester.

Ontario Student Transcript

- The Ontario Student Transcript (OST) is a provincially standardized document which provides a comprehensive record of a student’s achievement in secondary school. Copies are available to students upon request.
- The credits that a student has earned towards fulfillment of the requirements for the graduation diploma will be recorded on the OST, regardless of how or where the credits were earned.
- In Grades 9 and 10 only the successfully completed courses are recorded on the OST.
- In Grades 11 and 12 withdrawals, repeats, unsuccessful and successful courses are recorded on the OST.

Attendance

Regular attendance at school is critical for students’ learning and achievement of course expectations. Students are required to attend school until they reach the age of 18 or graduate. Where, in the Principal’s judgment, a student’s frequent absences from school are jeopardizing his/her/their successful completion of a course, staff will communicate with the student and parents/guardians to explain the potential consequences of the absences, and to discuss steps that could be taken to improve student attendance.

Ontario Student Record

- The Ontario Student Record folder (OSR) is the official record for a student. The OSR is created when a student enters the Ontario school system and moves with the student from school to school. Every Ontario school keeps an OSR for each student enrolled.
- The OSR is created under the authority of the Education Act, and the contents of the OSR are protected under the Freedom of Information and Protection of Privacy Act. Parents/guardians and the student may examine the contents of the OSR on request, with the assistance of the principal or designated administrator.
- The OSR folder contains achievement results, credits earned, and other information important to the education of the student.
- For more information about the Ontario Student Record, review the [Ontario Student Record \(OSR\) Guideline, 2000 \(revised 2020\)](#).

Alternative Schools

Alternative Schools

The following chart provides an overview of the alternative learning experiences available to students in the TDSB. The environments vary and are aimed at providing students with an alternative educational experience suited to their learning styles/preferences and/or needs. Each of the schools and programs differs in their approach to student learning and program structure. Some admission criteria has been included to help guide interested students to an appropriate choice. For more specific admission requirements, please contact the school or program directly or access school profiles. For more information, go to www.tdsb.on.ca click on **Find Your School** and then **Alternative Schools**.

Alternative Learning Environments	Phone	Profile
ALPHA II Alternative School	416-393-0501	Student directed learning; Grades 7 to 12
(ASE I) Alternative Scarborough Education	416-396-6914	Self-directed and motivated learners; student-centred, supportive and inclusive community; blended and e-Learning options; semestered, Grades 11 to 12
Avondale Secondary Alternative School	416-395-4542	Small, flexible, supportive and inclusive community for academic self-directed students; non-semestered; Grades 10 to 12
EdVance Adolescent Program		
Burnhamthorpe Adult Learning Centre (BCALC)	416-394-7130	EdVance is an accelerated credit program for students age 18-20.
City Adult Learning Centre (CALC)	416-393-9740	
Emery Adult Learning Centre (EALC)	416-395-3225	
Yorkdale Adult Learning Centre (YALC)	416-395-3350	
Scarborough Centre for Alt Studies Adult (SCAS)	416-396-6921	
City School	416-393-1470	Student-centered, small, supportive community of academic learners; semestered; Grades 9 to 12
Contact Alternative School	416-393-1455	Focus on maximizing credit accumulation via recovery and/or co-op. Ages 17-20, Grades 10-12. Most students are on college pathways w/some university. Enhanced nutrition program, vast mental health and anxiety supports (CYC, Social Worker, IRT). Semestered, continuous intake.
Delphi Secondary Alternative School	416-396-6919	Problem-based learning for highly motivated students; student-centred, supportive and inclusive community; semestered; Grades 9 to 12
East York Alternative Secondary School	416-396-2925	Small, flexible, student-centered, restorative, community school; for 16-20 year olds; Grades 10 to 12; semestered
Inglenook Community School	416-393-0560	Arts focused, small, intimate, student-centered community school; Semestered; Grades 10 to 12.
Oasis Alternative Secondary School		
a) Oasis Arts and Social Change Program	416-393-9830	Several unique continuous-intake programs, meeting a variety of needs; age varies depending on program (14 to 20 year olds); Grades 9 to 12; semestered
b) Oasis Triangle Program		
c) Oasis Skateboard Factory		
Parkview Alternative School	416-396-5592	Small, quiet, student-centred community for 16 to 20 year olds; Applied/College Courses; quadmestered; Grades 9 to 12
Co-op Program	416-396-3321	
(S.E.E.) School of Experiential Education	416-394-6990	Focus on re-engagement; small, caring community; credit recovery; continuous intake; 14-20 year olds; Grades 9-12; semestered
SEED Alternative School	416-393-0564	Small, highly academic program; university and college preparation for Grades 11 and 12; semestered.
(S.O.L.E.) School of Life Experience	416-393-0756	Semestered, academic and personalized alternative; Grades 11 to 12; blended and e-Learning options
Subway Academy I	416-393-9466	Small, quiet, student-centred community school; college and university pathways; credit recovery options for grade 10-12 courses; Grades 11-12
Subway Academy II	416-393-1445	The only supported independent study program where students meet one-on-one with teaching staff within a flexible school schedule that makes space for other responsibilities. Semestered grade 11 and 12 course offerings, cooperative education for working students, credit recovery, and an honouring of all post-secondary pathways.
The Student School	416-393-9639	Semestered blended learning model with individual support; Grades 11 and 12
West End Alternative School	416-393-0660	Semestered, grades 10-12 with credit recovery for grade 9 courses; small, supportive environment conveniently located on subway line.
Year Round Alternative Centres		
a) Etobicoke - 160 Silverhill Dr.	416-394-2120	Focus on re-engagement; small, caring community; Grades 10 to 12 courses are offered (dependent on need); credit recovery options for grade 9-12 courses; coop options available; quadmestered; Grades 10 to 12
b) North East - 2900 Don Mills Rd.	416-395-5300	
c) North West - 425 Patricia Ave.	416-395-4824	
d) South East - 720 Midland Ave.	416-396-4552	

Alternative Learning Opportunities

Credit Recovery

Students may enroll in a credit recovery program if one is offered at the school through a referral from the Student Success Team. Credit Recovery provides opportunity to get a credit without repeating the entire course. Credit Rescue provides support to students by way of intervention to attempt to rescue the credit before the student fails. See your guidance counsellor for details.

Prior Learning Assessment & Recognition (PLAR)

The PLAR “challenge process” allows adolescent students who have gained knowledge and skills outside secondary school, in both formal and informal ways to obtain credits (OS, section 7.2.5). The prior learning is evaluated against the expectations outlined in the provincial curriculum policy documents for the purpose of granting a credit. The PLAR policy states:

- Students may earn a maximum of four credits, including a maximum of two credits in any one discipline.
- Students can only challenge courses that are taught in TDSB schools.
- Students may challenge only Grades 10, 11 and 12 courses.
- The PLAR challenge process includes a formal evaluation (70%) and other assessments (30%).
- PLAR occurs annually each winter.

For more information, go to www.tdsb.on.ca/High-School/Guidance/PLAR

Music Certification

The Ministry of Education allows students who complete appropriate Royal Conservatory of Music (RCM), “Certificates” to be granted credits under OS, section 7.3.4.

The two external credits pertaining to RCM are as follows:

RCM Level 7 Practical & Level 7 Theory = AMX3M (1 credit)
RCM Level 8 Practical & Level 8 Theory = AMX4M (1 credit)

Please note the following:

- External credits cannot be used as the compulsory art credit requirement.
- A maximum of two external credits can be awarded to students taking music programs outside the school.
- The mark assigned for AMX3M or AMX4M is the average of the RCM practical and the RCM theory marks.
- There are restrictions on the number of additional in-school music credits a student can earn in Grade 12 and/or through PLAR. Students should check with a guidance counsellor.

Continuing Education

The Toronto District School Board offers a night school program and a Saturday credit program under the OSS curriculum guidelines. Course selections must be made in accordance with the Ministry of Education curriculum guidelines. Parents and students must consult with their day school guidance counsellor regarding course selections and pre-requisite courses. The Ministry of Education requires day school students to obtain permission from the day school to enrol in night school and Saturday credit courses.

Credit courses are open to all high school students and adults with current pre-requisites. Students may take a new credit, or re-take a course previously taken to upgrade a mark. Students cannot enrol in a course if they are taking the course in day school.

Summer School

The Toronto District School Board offers summer courses under the OSS curriculum guidelines. Course selections must be made in accordance with the Ministry of Education curriculum guidelines. Parents/Guardians and students must consult with their day school guidance counsellor regarding course selections and pre-requisite courses. Adults wishing to enrol in summer school courses at our two adult summer high schools must have earned the pre-requisite in Ontario.

The following types of courses are offered:

Regular Credit Courses: Open to all high school students and adults with current pre-requisites. Students may take a new credit, or re-take a course previously taken to update a mark.

Remote Credit Recovery: The TDSB offers current TDSB students the opportunity to recover one or two credits in summer school. Remote Summer Credit Recovery is open to current TDSB students who have taken the course in the past two years but have not earned the credit. All classes are remote, students work on one credit in the morning and their second credit in the afternoon.

For more information, go to www.CreditPrograms.ca

Other Ways of Meeting Diploma Requirements

Although most students complete the majority of their studies in a secondary school, credits towards the Ontario Secondary School Diploma may be earned in a variety of other ways. These include e-Learning, Continuing Education, Independent Learning Centre (ILC), private schools, etc. See your guidance counsellor for more information.

Alternative Learning Opportunities

Dual Credit Programs

The Dual Credit Programs provide students the unique opportunity to experience new and varied learning that appeals to their interests, strengths, and learning profile. Upon successful completion of the college-delivered course, students earn both a college and secondary school credit. A maximum of four optional credits may count toward the OSSD for approved college courses or Level 1 in-school apprenticeship training.

For more details on program offerings and the application process, please contact your school Student Success Team, guidance counsellor or visit

<https://www.tdsb.on.ca/High-School/Going-to-High-School/Specialized-Schools-and-Programs/Dual-Credits>

Below is a sample of dual credit courses that were previously offered. Each year courses may change pending SCWI (School College - Work Initiative) and Ministry funding and approval.

School Within A College Program (SWAC)

SWAC is a Ministry initiative partnering the Toronto District School Board with local community colleges to offer secondary students the opportunity to earn secondary school credits and dual credit 'General Education' college credits with the continued goal for our students to complete an Ontario Secondary School Diploma (OSSD).

To be eligible for this program, students must be between the ages of 17 to 20, have completed 22 or more credits, passed the Literacy Test and be in a position to graduate. Students must have the potential to succeed in college and will be choosing the apprenticeship or college pathway upon graduation.

Students spend a semester in secondary school courses (including credit recovery) as well as college-delivered dual credit courses. Students participate in this comprehensive program five days per week for one semester on a college campus. For more information, please contact your Student Success Team and/or Guidance Counsellor.

Alternative Learning Opportunities

tdsb | eLearning Day School

TDSB secondary students are eligible to apply for one e-Learning course per semester. Students remain enrolled at their secondary school (OSR School) and course requests require approval from the student's Guidance Counsellor. e-Learning courses are fully semestered and students in all TDSB secondary school programs may request an e-Learning course.

e-Learning courses provide an innovative, relevant and engaging learning environment where students work independently and collaboratively. e-Learning courses are primarily asynchronous with weekly lessons delivered by the course teacher who also provides one-on-one support and tutorials for students throughout the course.

TDSB e-Learning courses have been developed by the Ministry of Education and are delivered by TDSB teachers who are also teaching in TDSB secondary schools. These courses are part of student's day school timetable, appear on the student's transcript upon completion and are fully compliant with TDSB and Ministry expectations and policies.

Benefits of e-Learning

- gives access to courses that may not be available at the student's TDSB school;
- provides a unique way of learning;
- enables students to learn in a flexible, engaging environment;
- helps to resolve timetable conflicts.

Is e-Learning for you?

Students who are successful in an online course are usually:

- self-directed, self-motivated and able to plan, organize time and complete assignments and activities;
- comfortable with technology, i.e. email, attachments, internet research, etc;
- capable of working independently;
- able to access a device and internet.

Setting you up for success

All enrolled students attend an orientation session to meet their teacher at the beginning of each semester (September and February).

Students should plan to spend an equal amount of time working on their online coursework as they would in a face-to-face classroom course.

Interested in requesting an e-Learning course?

- Please visit <https://schoolweb.tdsb.on.ca/elearning/e-Learning-Day-School> for a full list of courses offered
- Select your course online and follow the online registration process
- Make an appointment with your Guidance Counsellor to submit your signed parent/guardian permission form, review your course selection and obtain approval

tdsb | eSummer School

TDSB's e-Summer School program is available to all Ontario residents, aged 14-20. This free high school credit program is for Ontario secondary school students who wish to pursue secondary school credit courses online. There are two sessions during the summer months, one in July and one in August. Students are eligible to take one course per session. The only exception is half credit courses (GLC2OE/CHV2OE) which can both be taken in one session.

Registration includes completing and submitting an online course request, printing the permission form attached to the e-Summer school confirmation email, getting parent/guardian signature and providing it to your Guidance Counsellor for approval.

During the e-Summer school students are expected to:

- login daily to the e-Summer course;
- participate regularly in classroom discussion threads, tutorials and lessons;
- complete and submit assignments on time.

Setting you up for success

All enrolled students attend an orientation session (online) to meet their teacher at the beginning of each session. In addition, if the e-Summer course has a final examination, students must attend a supervised face to face exam at a central location at the end of each session.

For more information, visit the e-Summer Program site: <https://schoolweb.tdsb.on.ca/elearning/e-Summer-Online-Program>

Re-Engagement Opportunities

Continuing Education and Community Opportunities

www.tdsb.on.ca

Adult Learners or Community

The Toronto District School Board is the community's key provider of alternative, life-long opportunities for learning.

Continuing Education and Community programs include the following:

- **Adult Credit Programs**
 - Adult High Schools
 - Adult 18+ Continuing Education
- **Community Programs**
 - General Interests (Learn 4 Life)
- **Learn English**
 - LINC (Language Instruction for Newcomers to Canada)
 - ESL Programs (AdultESL@tdsb.on.ca)
- **Skills Development**
 - Essential Skills Upgrading

For more information, visit:

www.tdsb.on.ca

Click on
Adult Learners
or
Community

e-Credit Courses +18

The TDSB e-Credit 18+ program is for adult learners age 18 and over who are no longer attending secondary school and want to earn credits online to complete their High School Diploma.

This year, the TDSB e-Credit 18+ program will be available to adult learners in Semester 2.

Setting You Up for Success

All enrolled students attend an orientation session to meet their teacher at the beginning of the session in February.

Our eligibility criteria require that students enrolled in the e-Credit 18+ Program must not be attending another TDSB or Ontario secondary school simultaneously. If you are enrolled in a day school program you may not continue with an e-Credit 18+ course.

For more information on how to register please visit our website: <https://school-web.tdsb.on.ca/elearning/e-Credit-18-2021-22-Updates>

Eligibility Summary

Students must:

- be 18 years of age or older;
- not attending a publicly funded day school;
- provide an official transcript of previous completed high school courses; and
- meet the necessary prerequisites for the requested course.

Adult High Schools

Toronto District School Board has five adult high schools for students 21 years of age and older, wishing to complete their diploma or upgrade their skills for post-secondary opportunities or transition to work. For complete program offerings and admission requirements please contact the appropriate school directly or visit www.adultschooltoronto.ca.

Re-Engagement Opportunities

EdVance and Adult High Schools

The Toronto District School Board offers five EdVance schools, a program that enables learners 18-20 years old to complete their high school diploma or change career paths at an accelerated rate. Each EdVance school is attached to an adult high school offering credit courses for students 21 years of age and older. Students may complete their diploma, improve their language skills, upgrade for post-secondary opportunities or transition to work. For complete program offerings and admission requirements, please contact the appropriate school directly or visit www.adultschoolstoronto.ca.

School	Phone	Profile
Burnhamthorpe Adult Learning Centre	416-394-7130	Burnhamthorpe offers EdVance and adult programming with a wide range of credit courses at both the college and university level, ensuring students are prepared to excel in their chosen pathway whether it be the workplace, trades, college or university. Burnhamthorpe has a growing program of tech programs to prepare learners for the job market. Focusing on student success and wellbeing, we offer a variety of student supports, settlement services and community partnerships. We are located in Toronto's west end at Burnhamthorpe Rd & the 427. www.burnhamthorpe.org
City Adult Learning Centre (CALC)	416-393-9740	CALC offers a wide range of credit courses at the college and university levels, and specialty programs including Personal Support Worker (PSW), Culinary Arts, Co-op and ESL Credit. In addition CALC has many community partners providing support to our learners. We are conveniently located downtown at Broadview subway station. www.calconline.net
Emery Adult Learning Centre	416-395-3225	At Emery our EdVance and adult programs boast a caring, supportive and nurturing environment, designed to meet your unique learning needs. We offer academic credit courses leading to university, college, trades and the workplace. In addition Emery offers Co-op, Business and Hairstyling programs. We are located in the north west part of the city on Weston Rd near Finch Ave. schoolweb.tdsb.on.ca/emeryalc
Scarborough Centre for Alternative Studies (SCAS)	416-396-6921	SCAS Adult and EdVance offers credit courses leading to university, college, apprenticeship programs, and other post-secondary endeavours. Our Adult programs include ESL, Medical Office Administration, Hairstyling, and Co-op. Our EdVance programs offer students between 18-20 years an opportunity to accelerate their learning towards earning their graduation diploma. We focus on our students' ongoing success. SCAS (Adult and EdVance) is located at 720 Midland Avenue near Eglinton Ave. East. Please visit us at www.scasonline.com for more information.
Yorkdale Adult Learning Centre	416-395-3350	At Yorkdale we believe in your success. Our EdVance programs include Co-op, ESL, Culinary Arts, Hairstyling, Woodworking, Technology, Business and Arts. Our adult specialty programs include Co-op, ESL, Business I.T., Personal Trainer, Introduction to Healthcare, Nutrition Certificate, Personal Support Worker (PSW), Hairstyling and Child Care. We also offer a range of credit courses at the college and university level. Yorkdale is located on Orfus Rd. near the 401 & Dufferin. www.yorkdale.net

Re-Engagement Opportunities

The following opportunities are available within the Toronto District School Board (TDSB) for students aged 18 to 21 who have left school and are looking to re-engage in their education.

Alternative Schools

These schools provide an alternative, unique learning experience in each school (see page 15). The environments vary and provide an educational experience suited to individual learning styles/preferences and/or need. Admission criteria, age and grade for entry differ for each school.

www.tdsb.on.ca/Find-your/School/alternative-schools

Continuous Intake Co-op

Continuous Intake Co-op (CIC) provides an opportunity to earn credits while gaining work experience. Students complete the co-op curriculum, learn about workplace safety, human rights, resume writing, interview skills, employment standards and other work-related topics. You can join the program at any time during the school year and may earn one, two, three or four credits. This program is open to 17 to 20 year olds.

EdVance

EdVance programs allow students ages 18 to 20 years old to complete a high school diploma in a flexible, personalized program in an adult environment. The program focuses

on strengthening literacy skills, accumulation of credits (2 to 3 in a nine-week term and 8 to 10 in a full year) and valuable work experience through cooperative education. Students who are eligible have been out of school, but have demonstrated dedication to earning their diploma, and can attend regularly.

Night School

Continuing Education offers an Academic Credit Night School Program two nights per week in two 15-week semesters. Night School is open to TDSB day school and non-TDSB adolescent students who are working towards their secondary school diploma and who meet the criteria.

PLAR for Mature Students

(Prior Learning Assessment Recognition) If you are 18-21 years old and have been out of school for one year, you may be eligible for Prior Learning Assessment Recognition (PLAR). This is a formal evaluation to grant high school credits for past learning, training, work and volunteer experience, hobbies and interests, and knowledge of a first language (other than English or French). The Assessment may grant up to 16 Grade 9 and 10

credits through the completion of individual subject assessments and up to 10 credits at the Grade 11 and 12 level. The last four grade 11 or 12 credits cannot be granted. They must be earned credits. Contact Continuing Education for more information about the equivalency process or visit www.tdsb.on.ca/Adult-Learners/Adult-Credit-Programs.

Year Round Schools

These four schools assist students to get back on track and then transition to other opportunities. There are four different entry points annually; each session being approximately 10 weeks. These schools offer: Grade 9 and 10 courses, dual credits, credit recovery, access to a child and youth worker, a nutrition program and expanded cooperative education opportunities.

General Educational Development (GED) Testing

Earn your ONTARIO HIGH SCHOOL EQUIVALENCY CERTIFICATE from the Ministry of Education.

The GED is for adults 18 years or older and out of school for one full year who have gained the lasting skills of a Grade 12 graduate through life-long learning and on-the-job experiences.

The Independent Learning Centre (ILC) is the sole provider of the GED testing services for the province. For information, visit www.ilc.org.

Toronto District School Board's GED Program will assess how close you are to passing and, if needed, will coach you through practising your skills to maximize your success on the tests.

GED Achievement offers you a two-part program:
GED Readiness Assessment: 2.5 hours (1 session)
GED Coaching and Practice: 18 hours (7 sessions)

Location: Central Technical School, 725 Bathurst Street

Visit the website at www.ged.com. Call 416-481-6043 for information and registration.

Specialized Programs

Interested in Specialized Schools and Programs?

Below is information outlining specific specialized programs. You will need to follow the Optional Attendance guidelines if you intend to apply to these schools/programs or any other school you may be interested in.

Research these opportunities at www.tdsb.on.ca/findyourschool and click on **By Program**. If you are considering a change, ask your guidance counsellor.

Africentric Secondary Program

This program offers students the opportunity to learn in some of their courses through an Africentric lens. This program provides an alternative way of learning while still being part of the Winston Churchill CI, and and Downsview SS school communities.

Art Focus/Program

These programs are designed to support students who are passionate about the Arts! These programs consist of intensive programs within select schools as well as specialized schools focused solely on the arts. Students applying to these programs must be interested in focusing their elective courses in the Arts as they work towards their Diploma requirement. Everyone is welcome to come and join our Arts-based communities!

Cyber Arts

These programs combine computers and art in small classroom settings where students may learn animation, sound and design technology, integrated computer studies and applications.

Elite Athletes

These programs accommodate the special needs of provincial or national athletes by constructing special time tables and unusual arrangements to complement coaching and travel schedules. TDSB schools provide programs that bring athletes together for curriculum contact, leadership and mutual support.

Leadership Pathway

The Leadership Pathway program helps students assume ownership for their leadership development. Students must take the initiative to become involved in a variety of in-school and community leadership opportunities. Students develop and expand their leadership skills through involvement in clubs and councils, specialized classes, additional community involvement hours, guest speaker sessions and workshops.

Math, Science & Technology

These programs are designed for students who express a deep understanding and interest of these subjects.

Optional Attendance

All students have the right to attend the school designated to serve their residential address. The TDSB Optional Attendance Policy (P013) governs the procedures for students who wish to attend a school beyond their designated attendance area.

More information about Optional Attendance can be found at www.tdsb.on.ca/Find-your-School/Optional-Attendance

To find your designated school by address visit www.tdsb.on.ca/Find-your-School/By-Address

www.tdsb.on.ca

Find Your School

By Program

International Baccalaureate

The International Baccalaureate (IB) program is a world-renowned graduation diploma which is recognized for admission to universities throughout the world. Students participating in the program will:

- demonstrate and maintain superior academic achievement;
- grasp new information quickly and retain it;
- be persistent and self-motivated;
- demonstrate excellence;
- show commitment to community service; and,
- study at least two languages and increase their understanding of cultures, including their own.

All external examinations, certificates and diplomas are prepared, graded and awarded by the Geneva-based International Baccalaureate Office.

This program is designed to provide a global perspective, as part of these programs you will study a variety of disciplines from business and commerce to languages.

Specialist High Skills Major (SHSM)

Specialist High Skills Major (SHSM) are Ministry approved programs. Every SHSM program must include the following five components.

1. A package of 8 to 10 required credits earned in Grade 11 or 12 that constitute a pathway to one of four possible destinations: apprenticeship training, college, university, or the workplace.

The package must include:

- four credits – called the “major” credits – these courses provide knowledge and skills closely related to the particular sector of specialization, which are specified in each of the SHSM sectors.
 - two to four additional required credits for courses in English and other relevant disciplines (e.g., science, mathematics, or business studies), as specified in each of the SHSM sectors which include a minimum of 6 hours of learning that contextualizes the subjects curriculum expectations for a particular SHSM sector.
 - two cooperative education credits.
2. Certifications and training, which are identified in each SHSM sector.
 3. Experiential learning through job shadowing, job twinning, work experience, and career exploration activities.
 4. Sector-partnered experiences in which students engage with a sector partner to explore sector-related content, skills, and knowledge involving either ICE (innovation, creativity, and entrepreneurship), coding, or mathematical literacy.
 5. “Reach ahead” opportunities, which allow students to experience learning in their intended postsecondary destination.

How do I find more information about SHSM?

www.edu.gov.on.ca/morestudentsuccess/SHSM.html

SHSM programs offered are subject to change.

Other Programs

Newcomer Reception Centres

At the Newcomer Reception Centres, students new to Canada receive a warm welcome, an orientation to the school system, and an in-depth assessment of their English and mathematical skills. During the 2021-2022 school year, assessments may be conducted after students register at their home school.

West End Reception Centre call 416-393-0542 • Georges Vanier Reception Centre call 416-395-9440

Advanced Placement (AP)

The Advanced Placement Program (AP) allows students to earn a Grade 12, University Preparation credit and pursue university level work while still in high school. In partnership with the College Board, schools offer AP exams which are compiled by the Development Committee which consists of representatives from a wide range of well known universities. These exams are graded by university professors and experienced AP teachers from different parts of the world by using common scoring standards. Successful completion of the AP exam may result in the opportunity to earn placement into second year university courses.

Cisco/Nortel Systems

These programs provide specialized equipment and staff training so that Technology departments can offer selected students the opportunity to earn CISCO/ Nortel Networking certification through the completion of successive Communications Technology credits.

English Language Learning

Toronto schools are proud to serve the most multicultural city in the world. Most Toronto secondary schools offer special programs for newcomers from other countries, so they can learn English and continue their education at the same time. Newcomers begin their new educational careers with a visit to a Newcomer Reception Centre for an assessment and advice on starting school and choosing courses.

ESL and ELD PROGRAMS

Credit courses in English as a Second Language (ESL) are available in every Secondary school and help students to learn English and develop the academic skills they need for success in Ontario schools. Credit courses in English Literacy Development (ELD) are for students whose education has been interrupted and who need help in developing their literacy skills. Special credit courses for newcomers may be available in other subject areas, such as geography, history, or science

LEAP

The Literacy Enrichment Academic Program (LEAP) is for newcomers who need intensive upgrading in literacy, mathematics, and study skills due to restricted educational opportunity in their previous country. LEAP is offered in select secondary schools across the TDSB.

French Language Programs

There are 3 programs in French as a Second Language at the secondary level in the Toronto District School Board. For more information about TDSB

French programming, visit www.tdsb.on.ca/Elementary-School/School-Choices/French-Programs

CORE FRENCH PROGRAMS

These courses are designed as a continuation of the Core French program begun in elementary schools. A special Introductory French course for students who have not accumulated the 600 hours of instruction in French at the elementary level for whatever reason is also available in many schools. All students are required to complete one credit in French as a Second Language as a graduation requirement.

EXTENDED FRENCH PROGRAMS

These courses have been designed for students who have accumulated a minimum of 1,260 hours of instruction in French at the elementary level via the elementary Extended French program. The program includes French, plus other subjects studied in the French language. Students who complete a total of 7 credits in French, 4 credits in Extended French and 3 in a subject taught in French, are eligible for the Certificate of Bilingual Studies (Extended French). This program is available at [11 secondary schools](#).

IMMERSION FRENCH PROGRAMS

These courses have been designed for students who have had a minimum of 3,800 hours of instruction in French at the elementary level via the elementary French Immersion program. This program includes French, plus other subjects studied in the French language. Students who complete 10 credits total in French, 4 credits in French Immersion and 6 credits in subjects taught in French, are eligible for the Certificate of Bilingual Studies (French Immersion). This program is offered at [12 secondary schools](#).

Specialized Tech/Co-op OYAP Programs

These programs offer students the opportunity to take concentrated senior tech courses combined with cooperative education experiences that will help them find employment.

Specific Program Information: Cooperative Education

How Does Co-op Work?

A company agrees to provide a placement for a student and designates an employee to supervise the learning in a one-on-one mentoring relationship. A scheduled interview determines the student's acceptance.

Work schedules vary: half, full, consecutive, alternate days, and summer employment. Learning opportunities at the placement are linked with the student's academic studies, education plan, personal goals and abilities through the Personalized Placement Learning Plan (PPLP) developed by the teacher in collaboration with the supervisor and student.

The teacher regularly monitors to assess student progress with the supervisor's input. Credits are awarded upon successful completion of the program. All placements are assessed for educational suitability as well as health and safety.

Who Takes Co-op?

Cooperative Education students are typically in senior grades, have a variety of postsecondary destinations: apprenticeship, college, university, work, and may be studying in any subject area. Cooperative Education and OYAP are also available to students with special needs through alternative programs.

Central Programs

Some placements are coordinated through central staff. These opportunities include drama and dance, health care, uniformed services (UHN, Toronto Police, Military) and more. See your Co-op teacher for more information.

For more information about cooperative education, contact your co-op teacher or guidance counsellor.

All secondary schools offer Cooperative Education. Cooperative Education is a unique program for students, integrating academic study with practical experience in business and industry. This learning experience helps students make informed decisions about future careers. Students also develop the work habits, attitudes and job skills necessary for a successful transition from secondary school to the workplace or postsecondary education.

Sample Timetables

A Grade 11 student in a non-semestered school is interested in fashion design. The student's schedule, spending a half-day in a placement, could look like this:

Period	Day 1	Day 2
1	AWI3M1	HNC301
2	ENG3C1	AVI3M1
3	AWI3MC	MBF3C1
4	AWI3MC	SBI3C1
<i>half-day placement in fashion store 2 credit Co-op</i>		

A Grade 12 student in a semestered school is interested in journalism. The student's schedule, spending a full-day in placement, could look like this:

Period	Sem 1	Sem 2
	MEL4E1	ENG4EC
	ENG4E1	ENG4EC
	SNC4E1	GLN40C
	GLN401	GLN40C
<i>full-day placement in community newspaper 4 Co-op credits</i>		

NOTE

- Co-op can count towards two compulsory credits.
- There is no limit to the number of optional co-op credits that a student can take.
- Co-op credits cannot be used for substitution of a compulsory course credit.

Experiential Learning

Experiential learning is planned learning experiences that take place in the community. It includes job shadowing, job twinning, work experience, school-to-work and OYAP – all of which can be a part of ANY course in secondary school. Experiential learning:

- Engages students in active work experience;
- Provides a framework for making career decisions;
- Develops knowledge skills and attitudes that are essential in today's society;
- Gives students a connection to the community; and,
- Promotes problem-solving and critical thinking and maximizes student growth and development.

Ask your teacher for details!

Experiential Learning

Job Shadowing and Job Twinning

- Students may accompany a cooperative education student to his/her/their placement for a half or full day to learn more and observe what someone does in their job, one-on-one. You can participate in more than one job shadowing or non-credit experience.

Specific Program Information: Apprenticeship

What is OYAP?

Ontario Youth Apprenticeship Program (OYAP) allows students to acquire high school credits, and in some cases, apprenticeship hours at the same time. This allows secondary school students to “try out” a potential choice by going to work for part of a school day, semester or year.

- Are you considering apprenticeship as a pathway to future employment?
- Have you completed 16 credits?
- Are you 16 years old?
- Do you enjoy learning by doing?

Students meeting the above criteria can enroll in a cooperative education program that will enable completion of the high school diploma while gaining skills and competencies towards an apprenticeship.

How Does OYAP Work?

Students who are interested in participating in OYAP take cooperative education during Grade 11 and/or 12. If the student and employer agree, an apprenticeship agreement can be signed and the co-op hours then counted towards the apprenticeship. There are over 150 different skilled trades that qualify. Many Accelerated Programs may also provide students with a Dual Credit opportunity (page 17).

Get the OYAP Advantage:

- Make future connections in the job market
- Become a skilled professional
- Have access to great jobs and good wages

OYAP: www.oyaptdsb.com

Specialized Co-op Programs

Specialized Co-op OYAP programs combine multiple credit specialized technology courses and cooperative education with a licensed tradesperson. *Application deadline is in late May in most cases.*

Specialized Co-op OYAP Programs

Auto Collision Repair	Danforth C&TI
Auto Service Technician	John Polanyi CI, Danforth C&TI
Construction	Birchmount Park CI
Cook/Baker	Central Technical School, Danforth C&TI, Thistletown CI
Electrician	Central Technical School
General Carpenter	Central Technical School
Hairstylist	Central Technical School
Plumber	Central Technical School
Transportation – Automotive, Truck & Coach/Heavy Equipment	Central Technical School

Accelerated Program

OYAP opportunities that include Level 1 “trade school” are open to TDSB students in their graduating year. Students must have completed all of their compulsory credits and prepare an application package for the competitive interview process. *Application deadline is in early November.* Contact your co-op or guidance teacher to apply.

Accelerated Programs	Training Delivery Agent
Baker	Humber College - North Campus,

Choices

myBlueprint

Planning Guide

How to use the Planning Guide:

Step #1 - Getting Ready – Gather the resources you may need from your school: Credit Counselling Summary, Course Selection Sheet, myBlueprint login, OEN (Ontario Education Number), Secondary School Information Guide, Choices Online Magazine

Step #2 - Access Your Allies – You need to meet and consult with teachers, guidance counsellors, parents/guardians, and others about your choices and your plan for achieving your goals.

Step #3 - Course Planning - Record the names and codes of courses that you might want to take.

Step #4 - Research - Review Diploma Requirements, Pathways, Things to Consider and your IPP. Using the Planning Guide, gather the information needed to complete your course selections.

Step #5 - Course Selection - Complete the Online Course Selection at myBlueprint.ca/tdsb.

Diploma & Certificate Requirements

Ontario Secondary School Diploma Requirements

- Successful completion of literacy requirement*
- **40** hours of community involvement**
- **30** credits (18 compulsory and 12 optional)

Compulsory Credits (Total of 18)

4 credits in English (1 credit per grade)

- The Ontario Secondary School Literacy Course (OSSLC) may be used to meet either the Grade 11 or the Grade 12 English compulsory credit requirement.
- The Grade 11 Contemporary Aboriginal Voices course may be used to meet the Grade 11 English compulsory credit requirement.
- For English language learners, the requirement may be met through earning a maximum of 3 credits in English as a second language (ESL) or English literacy development (ELD); the fourth credit must be a Grade 12 compulsory English course.

3 credits in mathematics (at least 1 credit in Grade 11 or 12)

2 credits in science

1 credit in the arts

- The Grade 9 Expressing Aboriginal Cultures course may be used to meet the compulsory credit requirement in the arts.

1 credit in Canadian geography (Grade 9)

1 credit in Canadian history (Grade 10)

1 credit in French as a second language

- Students who have taken Native languages in place of French as a second language in elementary school may use a Level 1 or 2 Native language course to meet the compulsory credit requirement for French as a second language.

1 credit in health and physical education

0.5 credit in career studies

0.5 credit in civics

3 additional credits, consisting of 1 credit from each of the following groups:

Group 1: English (including the Ontario Secondary School Literacy Course), French as a second language, classical languages, international languages, Native languages, Canadian and world studies, Native studies, social sciences and humanities, guidance and career education, cooperative education

Group 2: French as a second language, the arts, business studies, health and physical education, cooperative education

Group 3: French as a second language, science (Grade 11 or 12), computer studies, technological education, cooperative education

Note: The following conditions apply to selections from the above three groups:

- A maximum of 2 credits in French as a second language may count as additional compulsory credits, 1 credit from Group 1, and 1 credit from either Group 2 or Group 3.
- A maximum of 2 credits in cooperative education may count as additional compulsory credits, selected from any of Groups 1, 2, or 3.

Ontario Secondary School Certificate (OSSC)

Ontario Secondary School Certificate will be granted, on request, to students who are leaving school upon reaching the age of 18 without earning the Ontario Secondary School Diploma. (OS, section 6.3) A student must have earned:

- 2 English
- 1 Canadian Geography or Canadian History
- 1 Mathematics
- 1 Science
- 1 Health and Physical Education
- 1 Arts, Computer Studies or Technological Education
- 7 optional credits selected by the student from available courses

Certificate of Accomplishment

Students who leave school upon reaching the age of 18 without having met the requirements for the OSSD or OSSC may be granted a Certificate of Accomplishment. This certificate is a useful means of recognizing achievement for students who plan to continue certain kinds of training or find employment.

A student may return to school and take additional credit and non-credit courses and have their transcript (OST) updated. A new certificate will not be awarded, but an OSSD or OSSC will be granted when the returning student has fulfilled the requirements. (OS, section 6.4)

*Note: The literacy graduation requirement will be waived for all students graduating during the 2021-22 school year. The literacy graduation requirement will be restored for students graduating in the 2022-23 school year. Students in Grades 10 and 11 and non-graduating students, including those who are learning remotely, are required to work towards the literacy graduation requirement, through participating in the OSSLT, adjudication, or the Ontario Secondary School Literacy Course (OSSLC).

**Note: For students graduating in the 2021-22 school year, the community involvement graduation requirement will be reduced to a minimum of 20 hours of community involvement activities. The community involvement graduation requirement of 40 hours will be restored in 2022-23 and students working towards their OSSD should be supported to meet these graduation requirements in time for their graduating year.

Diploma & Certificate Requirements

Literacy Requirement

Ontario Secondary School Literacy Test (OSSLT)

In the spring of their Grade 10 school year, students will write the provincial literacy test, which is created and marked by the Education Quality and Accountability Office (EQAO).

- Students who pass the test fulfill the Literacy requirement.
- School boards are required to provide remedial assistance for students who do not complete the test successfully.
- If students have an Individual Education Plan (IEP) accommodations and/or modifications are available for the test although content may not be altered.
- English Language Learners (ELL) only take the test when they have reached an appropriate language level of language ability.

Visit www.eqao.com for information about test date, eligibility criteria, practice versions of the test and tips.

Ontario Secondary School Literacy Course (OSSLC)

Students who have been eligible to write the Ontario Secondary School Literacy Test (OSSLT) and who have been unsuccessful at least once are eligible to take the Ontario Secondary School Literacy Course (OLC40).

Students who successfully complete this course will have met the provincial literacy requirement for graduation, and will earn one credit. The credit may be used to meet the Grade 11 or Grade 12 compulsory credit requirement in English or the Group 1 additional compulsory credit requirement.

Adjudication Panel Opportunity

Some students who have earned enough credits to graduate in June but because of special circumstances have not completed their literacy graduation requirement will be afforded the opportunity to acquire the literacy credential through an Adjudication Panel's accreditation of their literacy skills. This is sponsored by the Ministry of Education and is managed by the TDSB English/Literacy Department. The eligibility criteria are very specific and accordingly few students are eligible. Contact your guidance counsellor for more information.

Community Involvement

What is Community Involvement?

An event or activity designed to be of benefit to the community.

A volunteer activity – not for pay or credit.

An event or activity to support a not-for-profit initiative unless pre-approved by school Principal or designate

Students must complete a minimum of 40 hours of community involvement prior to graduation.

- An indication of completion will be entered on the student's Ontario Student Transcript when the 40 hours have been submitted.
- The selection and management of the involvement is to be directed by the student and approved by the secondary school.
- Activities may take place inside or outside the school. If inside, activities may not be part of a credit program.
- The student may not displace a worker who would normally have been paid to perform the same function.
- Community involvement may begin in the summer after Grade 8.

Learning to 18

Students must attend school until age 18 or graduation.

Understanding Course Codes & Descriptors

Every course in an Ontario Secondary School has a six-character course code. A code can be broken down as follows:

Specialized and local programs have a unique sixth character.

Program Differentiation for Tech Courses

Tech credits sixth character indicate credit value:
1, 2 or 3 credits e.g. **TTJ3C2** = 2 credits.

Careful attention should be given to these:

Prerequisite:

A course which the Ministry of Education has designated as a requirement to be completed prior to undertaking a course.

Corequisite:

A course which must be studied at the same time as another course.

Recommended Preparation:

A course which is highly recommended as providing the necessary foundation for another course but which is not designated as mandatory preparation by the Ministry of Education.

Begin with an End in Mind

Where are you going first after secondary school?

PLAN AHEAD

- What courses will you need to graduate?
- What courses will you need to get into a postsecondary program, e.g. training program or college or university?

ACCESS YOUR ALLIES

- Visit the Guidance Office
- Talk to your...
 - parents/guardians
 - teachers
 - guidance counsellor
 - friends

APPRENTICESHIP?

- Learn a skilled trade by combining courses with paid on-the-job training
- Check out Co-op as an OYAP Opportunity

What is your destination?

COMMUNITY LIVING?

- What skills do I need to obtain?
- What community connections have I made?
- Ensure that you develop community connections through volunteer opportunities and participation in programs

COLLEGE?

Offers programs that tend to be more career-oriented

Offers certificate (1 year), diploma (2-3 years) and degree (4 years) programs

Also offers pre-trades and apprenticeship programs see www.ontariocolleges.ca for details about requirements

UNIVERSITY?

Offers bachelor degree programs (3-4 years in length) as well as graduate (master's and doctoral) degrees

Offers degree in professional programs such as Medicine, Dentistry, Law and Education see www.ontariouniversitiesinfo.ca for details about requirements

WORK?

Check out:

- [TDSB Community Services](#)
- Community Employment Centres
- myBlueprint.ca > Work > Job Search

ONtransfer.ca - A website to help you plan post-secondary education, whether you want to go straight to your educational goal or make some stops along the way. Also, looks at transfers between college and university programs.

Is OYAP for you?

- Enjoy learning by doing?
- Earn while you learn
- Make future connections
- Become a skilled professional
- See a Guidance Counsellor

Cooperative Education

- Links academics with work experience
- Usually a separate application
- Interview is required
- Interested? See your guidance counsellor.

Internet research sites

- www.apprenticesearch.com
- www.ontariouniversitiesinfo.ca
- www.ontariocolleges.ca
- www.ouac.on.ca
- myBlueprint.ca/tdsb

OYAP
Ontario Youth Apprenticeship Program

- Enables students in Grade 11 or 12 to complete OSSD requirements while starting their apprenticeship training in one of the skilled trades

Examples: Early Childhood Education, Carpentry, Automotive, Culinary Arts, Plumbing.

www.oyaptdsb.com

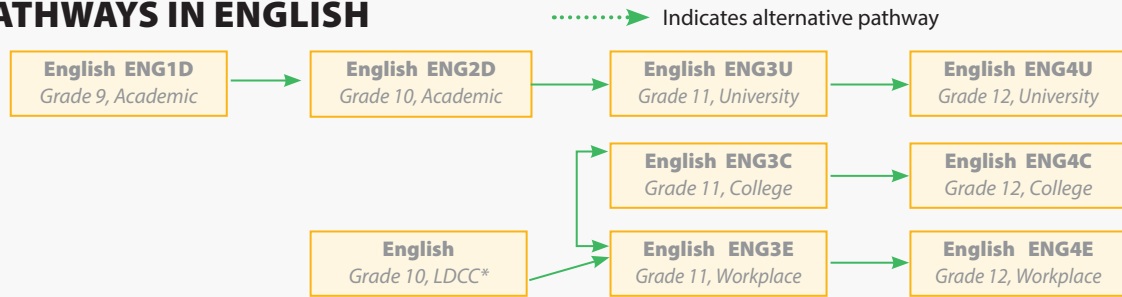

NEED TO SEE A COUNSELLOR?

Guidance Counsellors are available to assist you with your personal, interpersonal, and career development. Make an appointment or follow the protocol that your school uses during course selection time.

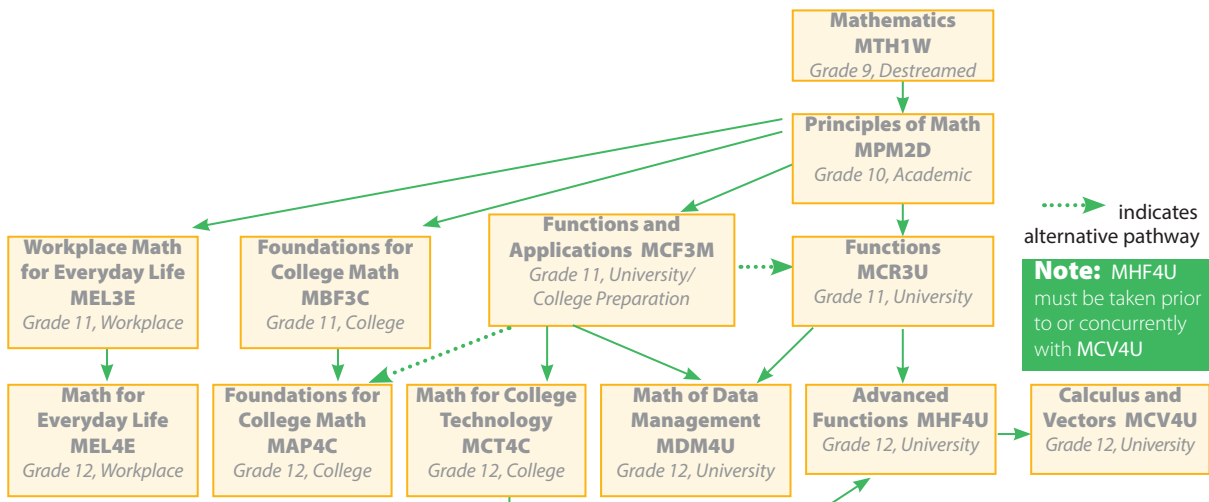

Pathways

These charts map out all the courses in the discipline and show the link between courses and the possible prerequisites for them. They do not attempt to depict all possible movements from course to course.

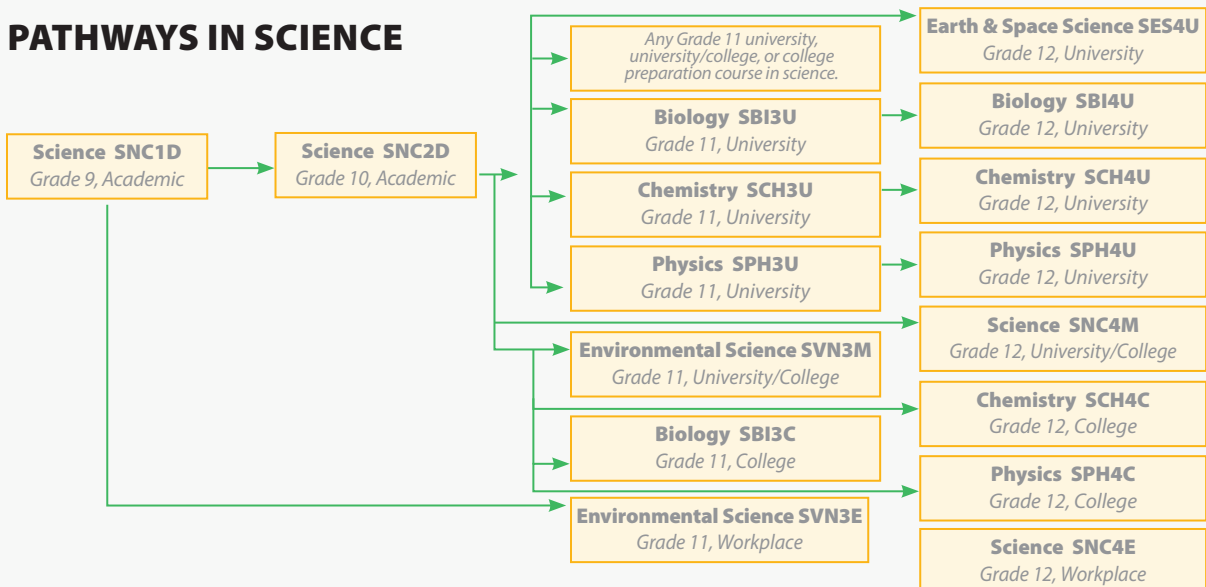

PATHWAYS IN ENGLISH

PATHWAYS IN MATHEMATICS

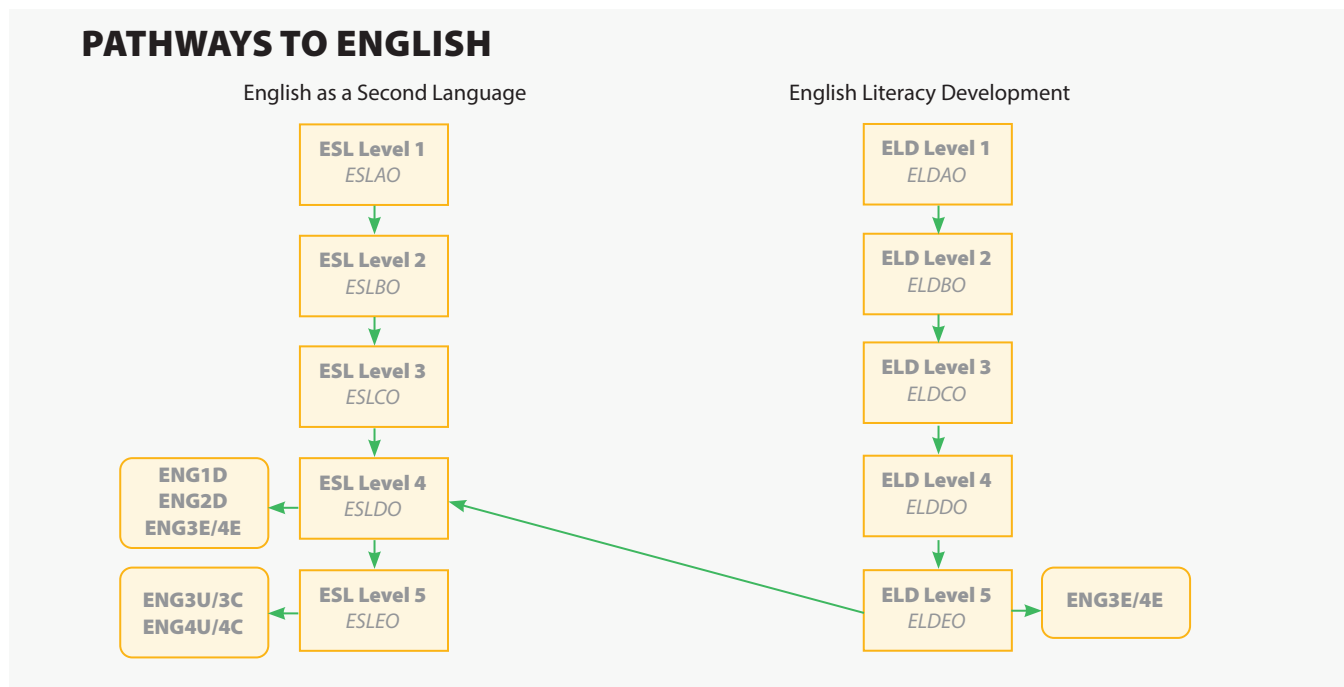

PATHWAYS IN SCIENCE

Pathways

The chart below shows how most English language learners may progress through their English as a Second Language (ESL)* and/or English Literacy Development (ELD)* courses and into mainstream English courses. Not all students will follow this sequence exactly, and individual students may vary in the rate at which they progress through the levels.

*Note: ESL courses are designed for English language learners who have had opportunities to develop language and literacy skills in their own language appropriate to their age or grade level. ELD courses are designed for English language learners with limited prior schooling who have not had opportunities to develop age-appropriate literacy skills in any language.

Course Types

Academic Courses (Grades 9 and 10)

(D in the 5th position) develop students' knowledge and skills through the study of theory and abstract problems. These courses focus on the essential concepts of a subject and explore related concepts as well. They incorporate practical applications as appropriate. (OS, Section 7.2.1) The emphasis is on theory and abstract thinking as a basis for future learning and problem-solving.

Alternative (Non-Credit) Courses (Grades 9 to 12)

(N in the 5th position) are individualized courses, documented in a student's Individual Education Plan (IEP), that comprise alternative expectations – that is expectations not found in the Ontario curriculum (OS, Section 3.3.1). "K-Courses" focus on a developmental continuum of specific skill development which may be taken in preparation for credit courses.

(P in the 5th position) focus on the essential concepts of a subject and develop students' knowledge and skills through practical applications and concrete examples. Familiar situations are used to illustrate ideas, and students are given more opportunities to experience hands-on applications of the concepts and theories they study. (OS, Section 7.2.1)

Locally Developed Courses (Grades 9 to 12)

Boards may develop other courses locally that are counted as optional credits. These may be created in any discipline. These courses require the approval of the Ministry (OS, Section 7.3.1) Schools with specialized programs often include such courses in areas such as entrepreneurship, athletics and specialized arts.

Open Courses (Grades 9 to 12)

(O in the 5th position) are designed to broaden students' knowledge and skills in subjects that reflect their interests and prepare them for active and rewarding participation in society. These courses, which comprise a set of expectations that are appropriate for all students, are not designed with the specific requirements of university, college or the workplace in mind. (OS, Section 7.2.2)

For access to Ontario curriculum policy documents, please visit:
<http://www.edu.gov.on.ca/eng/curriculum/>

Course Types

College Preparation Courses (Grades 11 and 12)

(C in the 5th position) are designed to equip students with the knowledge and skills they need to meet the entrance requirements for most college programs or for admission to specific apprenticeship or other training programs. (OS, Section 7.2.2) Teaching and learning will emphasize concrete applications of the theoretical material and the development of critical thinking and problem-solving skills.

University Preparation Courses (Grades 11 and 12)

(U in the 5th position) are designed to equip students with the knowledge and skills they need to meet the entrance requirements for university programs. (OS, Section 7.2.2) The courses will focus on the development of both independent research skills and independent learning skills.

Other Course Types - Dual Credit

A dual credit program course is a Ministry approved course that allows students who are still in secondary school to take college or apprenticeship courses that count towards both an OSSD and a postsecondary certificate, diploma or degree or apprenticeship certification. (OS, Section 7.3.3) For more information, visit:

www.tdsb.on.ca/High-School/Going-to-High-School/Specialized-Schools-and-Programs/Dual-Credits

English Language Learners

- “8” in the 6th position of the course code
- Some schools offer selected self-contained classes for ELL/ELD students.
- Check with a guidance counsellor or ESL Department in your school.

Substitutions

In order to allow flexibility in designing a student’s program and to ensure that all students can qualify for the secondary school diploma, substitutions may be made for a limited number of compulsory credit courses using selections from the remaining courses offered by the school. The decision to make a substitution for a student should be made only if the student’s educational interests are best served by such substitution. If a parent/guardian or an adult student requests a substitution, the principal will determine whether or not this should be made. A principal may also initiate consideration of whether a substitution should be made. The principal will make his/her/their decision in consultation with the parent/guardian or adult student and appropriate school staff.

University/College Preparation Courses (Grades 11 and 12)

(M in the 5th position) are designed to equip students with the knowledge and skills they need to meet the entrance requirements for specific programs offered at universities and colleges (often referred to as mixed courses). (OS, Section 7.2.2) Teaching and learning will emphasize both theoretical aspects and related concrete applications of the course content.

Workplace Preparation Courses (Grades 11 and 12)

(E in the 5th position) are designed to equip students with the knowledge and skills they need to meet the expectations of employers, if they plan to enter the workforce directly after graduation, or the requirements for admission to certain apprenticeship or other training programs. (OS, Section 7.2.2)

Other Course Types - Credit Recovery

Credit recovery programs are designed to help regular day school students meet the expectations of a course they have completed but for which they have received a failing grade. A credit for a course must be recovered within two years from the time the student fails the course. Students may work on recovering more than one credit at a time through the credit recovery process, and there is no limit on the number of credits a student may recover. (OS, Section 7.5.1)

In secondary school, students receive a percentage grade. A credit is granted with a mark of 50% or higher.

Things to Consider

DID YOU KNOW?

- There are many pathways to the same destination and sometimes it is more beneficial to build self-esteem, confidence and a sense of hope by being successful first and foremost.
- Students who select courses that are consistent with their interests, most recent achievement, strengths, needs or preferred learning style(s) create a foundation for success.
- There are many opportunities to build on success and change pathways at many points on your secondary path.
- If you are interested in changing your pathway to a new destination, see your guidance counsellor.

5-YEAR PLAN OPTION

- Is it part of your plan to take five years in secondary school?
- Do you want to do co-op, apprenticeship training (OYAP) and explore more options?

Although courses are organized into four grade categories, some students may take longer than four years to complete their diploma without repercussions to their future plans.

For students who have an IEP or have credits in ESL or want to explore cooperative or technological education, OYAP, etc, a five-year option may be another planning option.

QUADMESTER, SEMESTER & FULL-YEAR SCHOOLS

- Secondary schools are generally organized on either a full-year model (non-semestered), a half-year model (semestered), or a quarter-year model (quadmester).
- Students in a full-year, non-semestered secondary school usually study eight courses from September to June. The year is divided into two or three terms for examination and reporting purposes.
- Students in a half-year, semestered secondary school usually study four courses from September to January, and four courses from February to June, with examinations and reports at the end of each semester.
- Students in a quarter-year, quadmester secondary school concentrate on two subjects at a time from September to November, November to January, February to April, and April to June.

STUDENTS WITH SPECIAL NEEDS

Students who have had an IPRC or have an IEP have the opportunity to take Learning Strategies courses (GLE) in secondary schools in the TDSB. Students requiring a more individualized program or self-contained classes need to consult the Special Education teacher in your school to access additional supports your school may offer.

FULL DISCLOSURE

- All Grade 11 and 12 final course marks, withdrawals and repeats are recorded on transcripts, unless the course is dropped by the Marks Maintain After Date.
- WITHDRAWAL – Dropped course after second to last report card.
- REPEAT course(s) – both mark attempts are shown, but only one credit issued for highest mark.

NO GUARANTEES

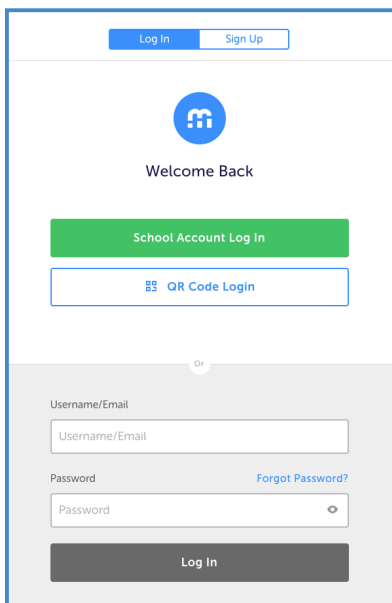

- All course offerings are subject to availability.
- Successful completion of a diploma does not guarantee admission to training programs or postsecondary institutions such as colleges and/or universities.

The TDSB is committed to academic pathways for grades 9 and 10 for the 2021-2022 school year. However, depending on Ministry direction and/or TDSB review, some course choices may change.

Completing Your Online Course Selection

1) Get Started

In your browser go to www.myBlueprint.ca/tdsb.

2) Select School Account Login

and login with your TDSB credentials (the same way you would log into a school computer)

3) Your Official High School Plan

Once you have logged in with your TDSB credentials, you can access your "Official High School Plan" by clicking on the "Submit Courses" button in the Course Selection box on the home page.

If the Course Selection box on your Dashboard says "Currently Closed" you can plan your courses but you cannot submit them until your school has opened course selection."

If you do not see the Course Selection box, check the Course Selection Issue alert at the top right of Dashboard.

Grade 9 Completed	Grade 10 Completed	Grade 11 Current Year	Grade 12 Next Year

Completing Your Online Course Selection

4) Add Your Courses for Next Year

- In the High School Planner grid, click "**Add [Course]**".
- Add compulsories first, and if required use the first four spaces for Semester I prerequisites for Semester II courses.
- In the "**Courses tab**", explore the courses available to you.
- Click "**Add Course**" when you find the course you want. It is automatically saved.

! ATTENTION
CHOOSE WISELY!

- Think of your plan
- Think of your future

Course Code's fifth position indicates the course type.

Course Type	
C = College	M = College or University
D = Academic	O = Open
E = Workplace	U = University
L = Locally Developed Compulsory	N = Non-Credit
	W = Destreamed

The sixth position indicates program or credit differentiation, or the focus of the course.
In this case: 1 = Regular

Program Differentiation for Non-Tech Courses

1 = Regular credit course	A = Part 1 (0.5)
2 = Beginner or Introductory course	B = Part 2 (0.5)
3 = Enriched course	E = e-Learning course
4 = Extended French course	Health and Physical Education
5 = French Immersion course	F = course for females
6 = Gifted course	M = course for males
7 = International Baccalaureate course	1 = co-ed courses
8 = Self-contained ESL course	
9 = Self-contained special education course	
0 = Advanced Placement	

Specialized and local programs have a unique sixth character.

Program Differentiation for Tech Courses
Tech credits sixth character indicate credit value: **1, 2 or 3 credits** e.g. **TTJ3C2 = 2 credits.**

5) Look at Your Graduation Progress

The **Graduation Indicator** will help you keep track of your progress. Click "**View Progress**" for a list of specific Ontario Secondary School Diploma requirements.

Review this feature to ensure you are selecting courses that will keep you on track to graduate!

Graduation Progress			
	12 Planned	9 Earned	30 Required
Compulsory 9/18 Credits			
	Planned	Earned	Required
4 Credits in English (1 credit per grade)	1	2	3/4
1 Credit in French As a Second Language	0	1	1/1
3 Credits in Mathematics (at least 1 credit at the grade 11 or grade 12 level)	2	1	3/3
2 Credits in Science	1	1	2/2
1 Credit in Arts	0	1	1/1
1 Credit in Health and Physical Education	0	1	1/1
0.5 Credit in Civics	0.5	0	0.5/0.5

6) What can You do after High School?

Before you submit your courses, it is important to understand the impact they will have on your future after secondary school. Plan ahead and build a full 30-credit plan to instantly discover the post-secondary opportunities available to you using the **Pathway Eligibility Indicator**.

Pathway Eligibility	
Last Updated Oct. 13, 2020, 3:00 p.m.

Course Descriptors & List of Course Codes

Course Descriptors

Course descriptors originate in the curriculum policy documents from the Ontario Ministry of Education www.edu.gov.on.ca. Descriptors for courses offered in Grades 9 through 12 within the Toronto District School Board are available at:

www.myBlueprint.ca/tdsb — as course selections are made

Since it is not possible for all schools to offer all available courses listed below, the school administration decides which courses will be offered in each secondary school. These decisions are based on the needs and interests of the students in each community. If there is insufficient demand for a course in a particular year, it may not be possible to offer the course in that year. In this case, the students affected will be notified and asked to amend their program choices accordingly.

School Virtual Library Website

All students and staff have access to the TDSB Virtual Library, an online portal that includes digital resources that extend and expand the print collections in local school library collections.

Access the Virtual Library for:

- Licenced eBooks, Encyclopedias, Informational databases, Streamed Video, Images and more
- Resources supporting all grades and subject areas in English and French. Many with enhanced read aloud, translation, integrated images/video and citation help features
- Curated guides to help you find content for homework, inquiry/ research and project help
- Developing essential digital citizenship and information literacy skills supporting lifelong learning for all pathways
- The Library Catalogue with a TDSB network account to search for print resources and view eBooks and streamed media
- 24/7 access from any internet-enabled device

Three ways to find your school's Virtual Library:

1. Go to www.tdsb.on.ca/library
2. Access via Brightspace
3. Online for "your school name" Virtual Library

Need help? Ask your Teacher-Librarian for remote access passwords and Virtual Library help.

Translations

“If you have any questions or require the assistance of an interpreter, please call the school principal.”

إن كانت لديك أسئلة، أو كنت بحاجة لمترجم، يرجى الإتصال بمدير المدرسة.

閣下如有問題或需要傳譯員的協助，請致電校長

در صورت داشتن هرگونه سوالی، ویا نیاز به مترجم، لطفاً با مدیر مدرسه تماس بگیرید.

Si vous avez des questions, ou si vous avez besoin des services d'un interprète, veuillez appeler le directeur de l'école.

Εάν έχετε οποιαδήποτε ερώτηση ή χρειάζεστε τη βοήθεια διερμηνέως, σας παρακαλούμε να αποταθείτε στον διευθυντή του σχολείου.

אם ברצונך לשאול שאלות או שהנך זקוקה לעזרת מתרגם, אנא טלפוןני למנהל\ת בית-הספר.

Se desiderate fare delle domande o se vi occorre l'assistenza di un interprete vi preghiamo di chiamare il direttore della scuola.

만약 여러분께서 물어보실 것이 있거나 통역관의 도움이 필요하시면 학교 교장에게 전화하십시오.

Kung mayroon kayong mga gustong itanong, o nangangailangan ng tulong ng isang tagapagsalin, tawagan ang punong-guro ng paaralan.

Se tiver questões por responder ou se precisar de um intérprete, deve telefonar para o escritório do director da escola ("Principal").

ਜੇ ਤੁਹਾਡੇ 'ਤੇਰੇ ਤੁਜ ਸਵਾਲ ਵਾ ਖਾ ਤੁਸੀ ਇਸ ਆਫ਼ਿਸ਼ਰ ਈ ਸਕੂਲਿਓ ਆਫ਼ਿਸ਼ਰ ਏ ਤੇ ਸਕੂਲ ਏ ਖਿਸਿਯਲ ਨੂੰ ਚੁਲਾਏ.

Если у Вас есть какие-либо вопросы или Вы нуждаетесь в переводчике, пожалуйста звоните директору школы.

Hadii aad wax su'aal ah qabto ama aad u baahan tahay tarjumaan, fadlan wac maamulaha dugsiiga

Si usted tiene alguna pregunta o requiere la ayuda de un intérprete sírvase comunicarse con el/la director/a del colegio.

நீங்கள் கேள்விகள் கேட்க மிதிர்பிதலோ அல்லது உதவி தேவையுள்ளதோ, உதவி தேவையுள்ளவருடன், உதவி தேவையுள்ள பள்ளிகளில் அறிவிப்பின் உதவியை நாடலாம்.

اگر آپ کوئی سوال پوچھنا چاہیں یا اردو مترجم (انٹریپرٹر) کی خدمات حاصل کرنا چاہیں تو اسکول کی پرنسپل سے رابطہ کریں.

Nếu quý phụ huynh có gì thắc mắc hoặc cần phải thông dịch viên giúp đỡ, xin điện thoại cho hiệu trưởng của bốn trường.

Information on the Ontario school system, is made available in many languages at www.settlement.org
