

Crosstown LRT Project – Update, September 20, 2019

WHAT TO EXPECT NEXT WEEK

Traffic Change at Mount Pleasant Station

- On Saturday, September 21, a new traffic configuration will be implemented at Mount Pleasant Station. East of the intersection, traffic on Eglinton Ave. will shift to the south side and travel around the island in the middle of Eglinton Ave. at Taunton Rd.
- On Mount Pleasant Road, traffic will remain on the west. The north-south crosswalk on the east side of Eglinton Ave. will remain closed, and the crosswalk on the west side of Eglinton Ave will be open.
- The traffic flip will begin as early as 9 a.m. and take approximately eight hours to complete. This configuration will be in place for approximately three weeks until mid-October 2019. Access to TTC and emergency response vehicles will be maintained at all times.
- During this stage, construction will return to the north side of Eglinton Ave, and road restoration and utilities work will continue. Once this stage is complete, the island in the middle of Eglinton Ave. at Taunton Rd will be removed and a new traffic stage will be implemented.
- Noise, lighting and traffic delays can be expected while the changes are being implemented.

UPCOMING TRAFFIC CONFIGURATION

- Traffic on Mount Pleasant Road will remain on the west.
- The east crosswalk will remain closed, and the west crosswalk will be open.
- Turns in all directions at Mount Pleasant Rd. and Eglinton Ave. will remain prohibited.
- The northbound left turn from Brownlow Ave. and Taunton Rd. onto Eglinton Ave. will be prohibited.
- Rawlinson Ave. will remain closed.
