Reiko Fuentes, B. Sc, B. Ed - Principal

---

October 27, 2017

We are writing to inform you that a portion of the roof at Forest Hill Collegiate Institute is going to be repaired this fall.

Construction is now scheduled to begin on October 30, 2017 and be completed within approximately 30 days. The start date for construction and the completion time for the construction are subject to change, depending on weather conditions.

Over time, this roof upgrade will ensure a continued safe learning environment for our students. This is part of a major roof repair initiative that's happening in the TDSB this year. Because of the volume of school roofs being repaired this year, work must continue throughout the school year during daylight hours however, we are making every effort to do as much work outside of regular school hours as possible.

The roofing process can cause strong and unpleasant odours, which, at times, may enter the building. Please be assured that there is no risk to our students and we are working with our facilities and health and safety teams to reduce discomfort including keeping windows and doors closed, ensuring all air intake openings are closed and that the building's ventilation system is on recirculation mode to ensure no outside air is introduced. Alternate accommodations will be made for students in the event of sensitivity to the fumes.

You can also find more information about the initiative at [www.tdsb.on.ca/AboutUs/FacilityServices/RoofRepairs.aspx](http://www.tdsb.on.ca/AboutUs/FacilityServices/RoofRepairs.aspx). Should you have any concerns about your child's health and safety related to this work, please do not hesitate to contact me.

Sincerely,

  
Reiko Fuentes  
Principal  
Forest Hill Collegiate Institute

*Not for ourselves alone*
