LEARNING SKILLS

Learning Skills are skills and habits are essential to success in school and in the workplace. The Learning Skills evaluated are: Responsibility, Organization, Independent work, Collaboration, Initiative and Self-regulation. Teachers report achievement on the five Learning Skills using letter symbols: E = Excellent, G = Good, S = Satisfactory, N = Needs Improvement.

Learning Skills clearly affect levels of achievement, but they are *not* part of the evaluation of achievement and are not included in the midterm mark or final course mark. Success in this course will be achieved by assignment completion which demonstrates successful meeting of the curricular expectations of the course as well as good attendance, punctuality, and academic integrity.

ACHIEVEMENT

- Students will have the opportunity to be assessed on an on-going basis throughout the course using a variety of assessment strategies including, but not limited to, self/peer/teacher observations, verbal feedback, student journals, checklists, and conferencing.
- Students need to demonstrate achievement of all overall expectations of the course. Missed or incomplete assignments will have a direct impact on the final grade. Where there are a significant number of curriculum expectations that have not been evaluated because of missed assignments, the credit will not be granted.

ATTENDANCE

Students are expected to attend class on a daily basis. A significant number of absences will have a negative impact on the student's performance. If a student cannot attend school due to illness or for any other serious circumstance, the school must be contacted.

ACADEMIC HONESTY

Students are expected to submit only their own original work on evaluations done in class or out of class. Plagiarism the passing off the ideas or writings of another as one's own. Cases of academic dishonesty (cheating and/or plagiarism) will be dealt with on a case-by-case basis, but each case will involve an investigation, communication with the student and his/her parent/guardian, and a mark of zero for the plagiarized work. Whether the student has an opportunity to demonstrate his/her learning in another assignment will be at the discretion of the teacher and/or Principal.

LATE WORK

In today's rapid paced world, time management is a required skill for success. It is expected that students will submit work on time according to preset dates. This ensures students will have time to complete all schoolwork. If a student cannot complete an assignment on schedule it is expected the student will discuss this with the teacher prior to the due date. Under certain circumstances the teacher may, but is not required to, negotiate a later due date.

Determining Marks for the Midterm Provincial Reports in November and April

This grade will be based on the evaluations that have been conducted to the midterm point in the course. Some of the Overall Expectations, categories/strands, and units will not have been addressed by the midterm, and the students' grades will most likely change when the students' entire work is evaluated by the end of the course.

Determining the Mark for the Final Report Card

The mark for the final report card will be the sum of the 70% mark and the 30% mark.
