

-After a break you can usually work at odd jobs around your desk, reading up on curriculum/ fun facts, and waiting for the bus

-kids arrive! Enjoy an amazing morning program! Make sure to think about transition times, and the age of the kids you are speaking to.

- enjoy lunch, make sure you take this time to prep anything for the afternoon that you didn't set up in the morning.

- afternoon programs, usually shorter, but just as fun!

-once kids leave (promptly at 1:50) you can clean up your classroom space, do dishes, keep laundry going, and make sure all your equipment from the day is put away

- have a debriefing conversation with your specialist about how you think the day went, be open to lots of things you can improve on for next time!

-afternoon usually consists of odd jobs or different intern projects you can begin to work on. Make sure you ask about lots of things you can do to help out, as people really appreciate it!

That's a basic-ish day at Forest Valley!! Have a wonderful term, remember you are getting paid to play with kids, everyday! Enjoy maple syrup, mapping, tubing, and all the pinecone birdfeeders your heart desires!

Graham Watson (a former intern, who once had the same nervousness you may feel, and is now typing this on his last day with a smile and a laugh at the jokes shared, kids met, and fun times had in this forested valley!)
