

Spring June 2014 ♥

Dear future interns

Welcome to Forest Valley, the most interesting and unique coop placement you will probably ever ~~receive~~ <sup>get</sup> :) The first week will probably be hectic. Setting up all the bulletin boards & whatnot. (actually I have no clue if your setting up the boards, I'm just assuming), but after you get a feel of the schedule, everything will run much more smoothly. Be excited, get outside (you don't really have a choice), <sup>haha</sup> I am more about nature than you will ever have the chance to. Ask Mel to teach you how to make a fire, ask which ones are the strangling dogvine & ~~pull~~ <sup>(also, try some wild leek, trout lily)</sup> pull them out, be on the lookout for groundhogs, deer, etc. take a look around & think of new bulletin board ideas (I made the frog one!) you can finish the trillion & jack in the pulpit board that I started (haha) avoid Rod, he likes to spread rumours (haha). Also, take a moment to read the old intern letters, they are probably a lot more helpful than my letter. ☺

Have fun & enjoy! ☺ ♥ Madaly So.

~~print~~

also, I know there is a lot of random stuff  
in the box but I only put in what I found on  
the desks. Also, the beaver was my first  
ever friend at forest valley.  
also remember, HB's gonna' HB.
