

Tubing Hill

If your class is hoping to use the tubing hill (weather dependent), parents/guardians must be informed of the importance of wearing a properly fitting CSA approved hockey or a skiing/snowboard helmet certified by a recognized safety standards association (e.g., ASTM, CE, Snell). As per OPHEA Guidelines, a properly fitting CSA approved hockey or a skiing/snowboard helmet certified by a recognized safety standards association will be provided, and is mandatory for all participants. Students may, if the parents/guardians choose, bring their own CSA approved snow sport helmet with them to Forest Valley.
