

# FRENCH IMMERSION AT HARBORD C.I.

## ENSURE YOUR CHILD'S COMMITMENT TO BILINGUALISM AND PLURICULTURALISM.

We equip students with strong, effective communication skills in both official languages, in order to allow them to excel in their personal and professional lives, while positively impacting our school, communities, and society.

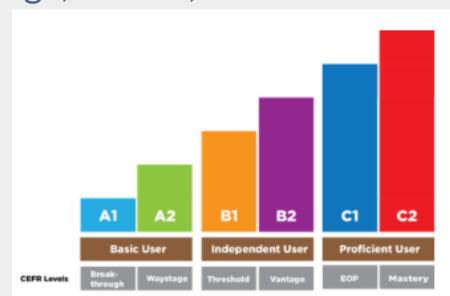

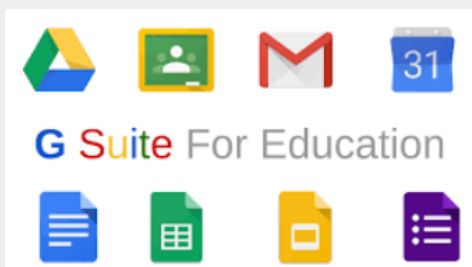

Our action-oriented programming allows for authentic interactions that represent real life, while also exploring multiple types of literature, film, and media. Students leave the program well equipped to succeed in post-secondary study and work - and daily life - en français.

Harbord's Extended and Immersion students learn in an environment that:

- is technology-rich
- is committed to student-centered learning
- recognizes the diversity of our communities and the Francophone world
- ensures exposure to regional, national, and international perspectives

Harbord's Extended and Immersion students have the opportunity to enrich their learning by:

- challenging the internationally-recognized DELF exam in Grade 12
- taking part in exchange programs and school trips (France, Québec, others)
- participating in French language speech and academic contests
- taking advantage of our outstanding Library Learning Commons, with novels, manga, comics, and more in French
