

SCHOOL CONTEST

project of
TIDEScanada
uncommon solutions for the common good

This fall, Project Neutral is launching its 3rd annual Household Carbon Footprint Survey. Our campaign encourages households to measure their carbon footprint based on energy and water use, and transportation and food choices.

Each participating household will be able to view a breakdown of their carbon footprint and see how they compare to neighbours. Also, all households will be eligible for over **\$2,000** in prizes!

HELP RAISE AWARENESS ABOUT
CLIMATE CHANGE
We're recruiting schools in Ward 13

WHAT'S IN IT FOR TEACHERS?

The survey is a complementary learning tool that teachers can use to support their curriculum in a variety of subjects including math, social studies, and climate change.

WHAT'S IN IT FOR STUDENTS?

DO something about climate change. ENGAGE with your local community. TEACH family members how to reduce your household carbon footprint. CLAIM community service hours.

The school that completes the most surveys wins

\$500

to go towards environmental initiatives of the school's choice.
