IONVIEW PUBLIC SCHOOL

AT IONVIEW,
BE THE CHANGE YOU WISH TO SEE IN
THE WORLD!

Hello Ionview!

As the weather warms so does our hope that we may return to school in June to end the school year together. We remain hopeful that as the COVID numbers continue to go down that the school can safely reopen so that we can come together as an Ionview community to end the year.

As was shared with the Ionview community we will be starting the process of collecting TDSB technology at the end of the June. More information will be forthcoming as we work through the logistics of this. Students who are attending TDSB summer school will continue to use the device that was loaned to them. Time is needed to ensure that we have available technology for students when they return in September time is needed to repair, update, and clean up these devices.

We will continue to share with the community pop up vaccination clinic information as the province has now made vaccinations available to students 12 and up.

Mr. Gordon and Ms. Fox-Casey

HAPPY BIRTHDAY GOES TO:

Have a wonderful birthday Ionview Scholars! Your birthday pencil awaits once we return to school!

June 1 Ayesha L

SPECIAL ANNOUNCEMENTS

1. **Summer School Opportunity:** For interested Ionview families please see link to summer school offerings for the summer of 2021. Most programs run from 9 to 12 in the month of July. This link will take you to the full list of summer school programs and the area of focus. Please note that each school has an individual registration link and space is on a first come first served basis. If you have any questions or concerns, please do not hesitate to reach out to us: <https://www.tdsb.on.ca/About-Us/Innovation/Elementary-Summer-School>

Please note that the school board has announced that all Summer School Programs will be virtual this summer.

2. **Sun Safety:** This spring and summer, the Toronto District School Board and Toronto Public Health want kids to be safe while playing outdoors. Getting students outside and active is good for their health but too much sun can have serious side-effects, including burns, eye damage, premature aging of the skin and skin cancer. We encourage all students to practice sun safety.

What exactly does sun safe behaviour look like?

- Cover up: Even on days with a moderate UV index students should wear a hat and sunglasses, especially if they'll be outside for over 30 minutes.
 - Stay cool: Students should stay in shady areas, particularly at midday when the sun is strongest.
 - Use sunscreen: Choose sunscreens with SPF 15 or higher that include protection from both UVA and UVB rays.
3. **Hope** is an expectation that good things will happen. While it may be hard to even consider such an expectation during a global pandemic, research shows that hopeful individuals do well under difficult circumstances. We can move in and out of feelings of hope. But looking to small milestones or bright spots can help improve our outlook and well-being.

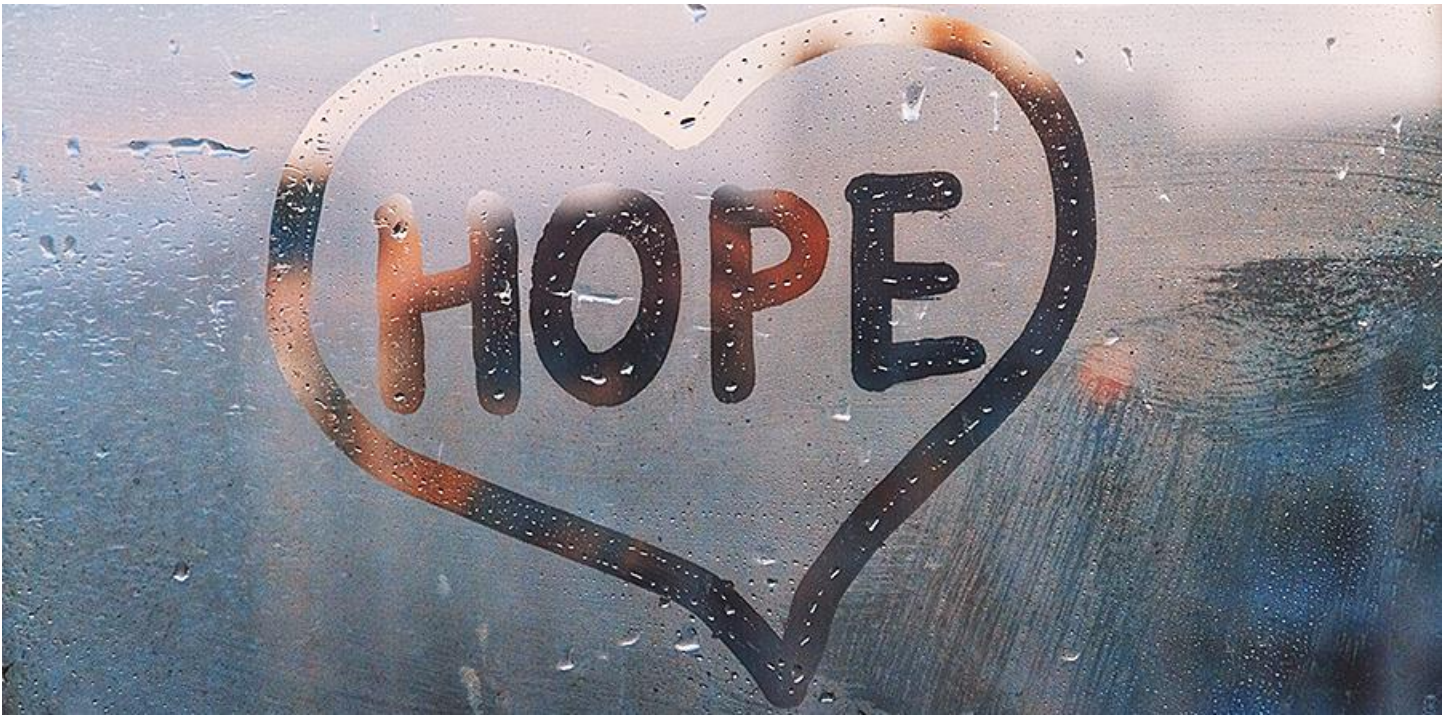

Here are some ways to instill and maintain hope during this challenging time:

- Embrace challenges as best you can
- Notice simple actions that inspire you or give you a glimpse of joy
- Try to focus on things day by day, moment by moment
- Laughing can make you feel better and can create hopeful moments

Student Activities:

- A Message of Hope to our Ionview students. Share in your google and brightspace classrooms. A challenge for our students: keep passing on messages of hope to others!
- Activity: "The first thing I'll do is..." Share your idea of hope on social media, post it at the [The Good Viral](#), hang it on your window, wall, fridge door, draw it on the sidewalk in chalk.
- Listen to a song or video that inspires you or gives you hope

IONVIEW POSITIVE WORDS

Wishing you a wonderful and safe weekend. Get outside and enjoy the wonderful weather!

Sincerely, Ionview Staff
