Thursday October 13, 2022

Dear Parents, Guardians and Caregivers,

This morning we were informed by Toronto Hydro that there is a planned power outage on Thursday, October 13th from 9 p.m. to 6 a.m. on Friday, October 14th.

This outage cannot be delayed and is required for Toronto Hydro to complete necessary work in the area.

We are aware that this directly impacts the programs taking place at the Island Public/Natural Science School, however we have set up the necessary provisions for students and staff to ensure the programing continues.

Arrangements have been made for a mobile power generator to be transported and installed at the Island Public/Natural Science School to ensure that the school has full power during this time.

Toronto Hydro will also be providing the generator with power from its main switch, which will give the school full power. We will also have an electrician on site all night until hydro has completed their work.

Your patience and understanding are appreciated as we continue to monitor the situation.

Please be sure to check out school's website and Twitter for updates.

As always, please contact me by email, or by phone at 416-393-1910 or on my school cell phone at 416-985-1266 should you have any questions or concerns.

Sincerely,

Gary Pieters
Principal
