Sir John A. Macdonald Collegiate Institute Course Brief

Course Name	Learning Strategies Grade 12		12
Course Code	GLE4O	Credit Value	1
Prerequisite	Individual Education Plan (IEP)		
Type of Course	Open		

TEXTBOOKS None

Assistive technology (Google Apps for Education and Read & Write Gold)

Course Description

This course focuses on learning strategies to help students become better, more independent learners. Students will learn how to develop and apply literacy and numeracy skills, personal-management skills, and interpersonal and teamwork skills to improve their learning and achievement in school, the workplace, and the community. The course helps students build confidence and motivation to pursue opportunities for success in secondary school and beyond.

Curriculum Strands/Categories

Knowledge and Understanding: Subject-specific content acquired in each grade/course (knowledge), and the comprehension of its meaning and significance (understanding)

Thinking: The use of critical and creative thinking skills and or/processes **Communication:** The conveying of meaning through various forms

Application: The use of knowledge and skills to make connections within and between various contents

Learning Skills

Learning Skills	What Learning Skills Look Like in School	Assessment of Learning Skills
Responsibility	- Handing in work on time	
	- Being on time	
	 Coming to class prepared 	
	 Following directions 	
Organization	- Keeping track of your work and materials	E= Excellent
	- Prioritize work	
	- Use your agenda	G = Good
Independent Work	- Try to problem-solve by yourself	
	- Finishing your homework, tasks, assignments	S = Satisfactory
Collaboration	- Respect when working with others	
	 Good communication and conflict resolution skills 	N = Needs Improvement
Initiative	- Taking control of your behaviour, attitude, actions	
	 Starting and finishing your work without supervision 	
Self-Regulation	- Having control of yourself and your emotions	
	 Waiting your turn; having patience 	
	 Performing as expected in school 	

Units of Study and Topics for Assessment and Evaluation of Student Achievement

Unit	Unit Title/Description	Assessment and Evaluation Tasks
Learning Skills	 By the end of this unit, students will develop skills related to: Applying literacy skills to communicate professionally Creating a personal budget Using Google Apps for Education Literacy and numeracy (for example: making inferences and money math) 	 Writing advocacy letter to access accommodations at post-secondary destination Scheduling and attending meeting at post-secondary accessibility centre Creating online portfolio of student work demonstrating strengths, needs, and interests
Personal Knowledge and Management Skills	By the end of this unit, students will develop skills related to: Applying knowledge of executive functioning skills to manage personal and academic challenges Using a Growth Mindset to overcome obstacles Self-advocacy in the community Understanding how personal factors affect achievement and well-being	 Students will show what they know through: Self-advocacy IEP brochure Community engagement project Journals/reflections Student-teacher conferences
Preparation for Transition and Change	By the end of this unit, students will develop skills related to: Identify skills necessary for transition to post-secondary pathway Researching post-secondary and workplace opportunities Decision-making, goal-setting, and action-planning to prepare for transition to their first postsecondary destination.	 Students will show what they know through: Complete application to post-secondary destination(s) Professional communications with post-secondary destinations and community organizations Student-teacher conferences Reflections
Exploration of Opportunities	By the end of this unit, students will develop skills related to: Researching changes and trends in the workplace Identifying opportunities for lifelong learning and professional development Seeking out academic and personal support in school and in community Prioritizing post-secondary pathways in relation to strengths, needs, and interests	 Students will show what they know through: Organizing class trips to post-secondary destinations Organize guest speakers from post-secondary destinations In-class assignments Surveys and related reflection

Levels of Achievement

For Grades 9 to 12, a student's achievement of the overall curriculum expectations will be evaluated in accordance with the achievement charts in the provincial curriculum and will be reported using percentage marks.

Achievement Level	Percentage	Achievement Description
	Mark Range	
HL4/L4+	95 – 100	Level 4 identifies achievement that surpasses the provincial standard. The student demonstrates the
L4	87 – 94	specified knowledge and skills with a high degree of effectiveness.
LL4/L4-	80 – 86	
HL3/L3+	77 – 79	Level 3 represents the provincial standard for achievement. The student demonstrates the specified
L3	73 – 76	knowledge and skills with considerable effectiveness. Parents of students achieving at level 3 can be
LL3/L3-	70 – 72	confident that their children will be prepared for work in subsequent grades/courses
HL2/L2+	67 – 69	Level 2 represents achievement that approaches the provincial standard. The student demonstrates
L2	63 – 66	the specified knowledge and skills with some effectiveness. Students performing at this level need to
LL2/L2-	60 – 62	work on identified learning gaps to ensure future success.
HL1/L1+	57 – 59	Level 1 represents achievement that falls much below the provincial standard. The student
L1	53 – 56	demonstrates the specified knowledge and skills with limited effectiveness. Students must work at
LL1/L1-	50 – 52	significantly improving learning in specific areas, as necessary, if they are to be successful in the next
		grade/course

Students who achieve below 50% have not met curriculum expectations; a credit will not be granted.

Assessment and Evaluation Philosophy

"The primary purpose of assessment is to improve student learning. Assessment for the purpose of improving student learning is seen as both "assessment for learning" and "assessment as learning". As part of assessment for learning, teachers provide students with descriptive feedback and coaching for improvement. Teachers engage in assessment as learning by helping all students develop their capacity to be independent, autonomous learners who are able to set individual goals, monitor their own progress, determine next steps, and reflect on their thinking and learning."

(Growing Success, p. 28)

Reporting of Achievement

Weighting by Strands/Categories		
Application – 25%	Knowledge/Understanding – 25%	
Thinking/Inquiry – 25%	Communication – 25 %	

CALCULATION OF FINAL MARK → 70% of final mark is from assessments and evaluations conducted throughout the course
