

# John Fisher Junior Public School Committee Meeting Notes

December 11<sup>th</sup>, 2017  
6:00 pm  
Library

## 1. Update – Status and next stages of work – KG Group

We are continuing with shoring and excavation.

## 2. Update - Key issues identified through KG website – KG Group

No issues have been reported. We received a couple of question on the email on accounts inquiring what we are building on the site from the public. There have been no calls on the hotline over the last month.

## 3. Update - Key issues identified through TDSB - TDSB

None

## 4. Bright lights left overnight at the site - M. Cuervo

J. Chan - Lights are required because daylight hours are changing. We are allowed to put lights on our property. The lights on the construction site are not as bright as the street lights. We have to ensure that the site is lit and secure at all times.

J. Chan will look into seeing what they can do to redirect the lights away from the houses. **Update** – KG Group has addressed the issue with the lighting. There are no other complaints re: this item from the community.

## 5. Asbestos report and other documentation – T. Razek

T. Razek – The parents would like to have any reports going forward made available to them in different ways.

S. Shaw – we have always preferred to have the reports explained to parents by the right people so they understand the information in the reports. We will post the asbestos and lead report on the John Fisher website but would like to have some Q & A's available to post along with them along with a covering letter to explain what we are doing and why. It was decided that the letter and Q & A's will go out as a communication to parents and the actual reports will be posted on the website only.

S. Shaw to send M. Harroun the asbestos and lead reports to post on the John Fisher website. **Update:** The asbestos and lead reports have been posted on the John Fisher website.

## **6. Status of school safety zone measures, such as electronic speed signs, new speed limits and new parking signage on Keewatin Ave - T. Razek**

K. Ma - There are many stages the City has to go through when dealing with traffic surveys and developing school safety zone measures. The signs are being made now and K. Ma will confirm what the expected date of installation is. K. Ma will also check on the status of the electronic speed signs, new speed limits and the new parking signage on Keewatin.

K. Ma to send the updates to S. Pike when he has them and S. Pike to send the information to the committee once K. Ma provides it. **Update:** K. Ma provided an update and it was shared with the committee members via email.

## **7. Status of second access gate to the school on Keewatin - T. Razek**

H. Abuyusuf – Our design department is consulting with the Forestry and City Arborists departments and then we will be applying for the permit.

**Action:** H. Abuyusuf will bring in the design to share with the group once it is done.

## **8. Status of cross walk - T. Razek**

K. Ma will look into where the study of the School safety zone review is and bring it back to the committee.

K. Ma to send the updates to S. Pike when he has them and S. Pike to send the information to the committee once K. Ma provides it. **Update:** K. Ma sent an email with some updates and S. Pike shared the email with the committee.

S. Shaw inquired about the status of the cross walk study. K. Ma informed the group that the cross walk study was complete and the recommendation is that we do not need a mid-walk cross walk.

L. Girdhar-Hill asked if the criteria is the same for a crossing guard. K. Ma responded that the criterial is not the same for a crossing guard and that study is done through Toronto Police Services.

The Group agreed that the work the City has done on the roadway has been very good.

## **9. Future Meeting Dates - ALL**

The next meeting will be held on January 29, 2018 at 2:00 p.m. in the library.
