Re: Abatement Completion Letter
John Fisher Junior Public School
40 Erskine Avenue, Toronto, Ontario
ECOHEALTH Project Number: 17201-PR4

ECOHEALTH Management Inc. (ECOHEALTH) is pleased to present this Abatement Completion Letter for work completed at John Fisher Junior Public School located at 40 Erskine Avenue, Toronto, Ontario.

ECOHEALTH hereby substantiates that abatement work was successfully completed by a professional and qualified Abatement Contractor between June 17, 2017 and July 27, 2017. Abatement work included the removal of accessible friable asbestos-containing materials and accessible loose or flaking lead paints.

Visual inspections and air monitoring completed by **ECOHEALTH** indicates that abatement work was performed safely and in accordance with project specifications, applicable Health & Safety Regulations and Toronto District School Board policies. It is acceptable for the abatement work areas to be re-established to resume normal day-to-day activities.

Refer to the Abatement Close Out Report for specific details regarding abatement work and ECOHEALTH's inspection reports and air monitoring results.
