Dear Families,

What a difficult lesson it is for children to learn about doing the right thing and practicing integrity, which is this month's character trait. At Lynnwood, we strive to support students in doing what is right by each month emphasizing the character traits and the Grandfather Teachings. We know that you share in understanding the connection between mental health and well-being and student achievement, which supports every student's academic and personal success.

In partnership,

Joy Reiter

TDSB and Cellphones

To help reduce distractions in our schools, starting this September, we are denying cell phone usage during instructional time so that students can focus on getting back to basics and learning foundational skills like reading, writing and math.

Our youngest learners in kindergarten to Grade 6, who may have phones, will now be required to keep phones on silent and out of sight for the duration of the day.

For students in Grades 7 to 12, phones can be with the student. However, they will only be permitted during instructional time if explicitly allowed by the educator.

TDSB will also commit to having report cards include comments on students' distraction levels in class. We recognize that some parents want to communicate with their children during school, and the policies listed above will still permit that during non-instructional time or when an educator gives permission.

Asian Heritage Month

Asian Heritage Month has been proudly recognized at the Toronto District School Board during the month of May since 2007. This heritage is also celebrated by the Province of Ontario with the royal ascent of the [Asian Heritage Act](#), 2005 and across Canada since May 2002 when the federal Senate adopted a motion to officially designate May as Asian Heritage Month in Canada.

This year's theme for May 2024 was selected by the Asian Heritage Month Volunteer Planning Committee as *Our Journeys: Thriving Through Struggle and Triumph*.

The TDSB is the largest and one of the most diverse school boards in Canada. Nearly one-quarter of our students were born outside of Canada and collectively we speak more than 120 languages. According to the 2023 Student Census 46% of TDSB students self-identified as Asian.

Learning about the sky!

The grade 6s recently learned about space. We also discovered that Indigenous people look to the sky and see it as a map. They have many stories about stars and how they came to be. Ursa Major, known as the Big Dipper represents the Great Bear.

Students working hard to make their constellation telescope.

They wrap tin foil with holes around their construction paper telescope.

Students can look through the telescope or flash a light through it and have the light shine through.
