Introduction to Anthropology, Psychology, and Sociology HSP3C

Grade 11, College Preparation: Credit Value 1.0

Geography and Social Sciences Department • Malvern C.I. • Toronto District School Board

Course Instructor: Marcela Smolkin Email: Marcela.Smolkin@tdsb.on.ca

Assistant Curriculum Leader: Evan Grant

Revised: Sept 2021

Equity Statement

Malvern CI stands together for human rights. Our school community stands together to recognize that we are all entitled to a life of equality, dignity, and respect — a life free from discrimination. All students should feel safe at school and deserve a positive school climate that is inclusive and accepting, regardless of race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, gender identity, gender expression, age, marital status, family status or disability.

Course Content

Description

This course introduces students to theories, questions, and issues related to anthropology, psychology, and sociology. Students learn about approaches and research methods used by social scientists. Students will be given opportunities to apply theories from a variety of perspectives, to conduct social science research, and to become familiar with current issues within the three disciplines.

Ministry of Education. (2013). The Ontario Curriculum Grades 9 to 12: Social Sciences and Humanities, pg. 300. http://www.edu.gov.on.ca/eng/curriculum/secondary/ssciences9to122013.pdf

Prerequisite

none

Resource Materials

- Individual subject binder, loose leaf paper and writing utensils
- Social Science: An Introduction (2011), McGraw-Hill Ryerson (in-class text)
- Google Classroom code: tqf4671

Major Units

Unit 1: Research and Inquiry Skills

Unit 2: Anthropology Unit 3: Psychology Unit 4: Sociology

Overall Goals / Expectations

Research and Inquiry Skills

Throughout this course, students will:

- explore topics related to anthropology, psychology, and sociology, and formulate questions appropriate to each discipline to guide their research;
- create research plans, and locate and select information relevant to their chosen topics, using appropriate social science research and inquiry methods;
- assess, record, analyse, and synthesize information gathered through research and inquiry;
- communicate the results of their research and inquiry clearly and effectively, and reflect on and evaluate their research, inquiry, and communication skills.

Overall Goals / Expectations (continued)

Anthropology, Psychology, and Sociology

By the end of this course, students will:

- demonstrate an understanding of major theories, perspectives, and research methods in anthropology, psychology, and sociology;
- use anthropological, psychological, and sociological perspectives to explain how diverse factors influence and shape human behaviour and culture;
- use cultural anthropological, psychological, and sociological perspectives to explain patterns of human socialization.

Assessment, Evaluation and Reporting

Strategies

- Students will be evaluated on content and skills throughout the year
- Assessment and evaluation methods will vary with each unit, but over the course of the year may include:
 - quizzes and tests, written responses and analyses, individual and group projects, seminar presentations, individual and group presentations and a formal research essay
- Students will be given notice of timelines, due dates, criteria and expectations for assignments, and marking schemes.

Achievement Category Weightings

Knowledge / Understanding	Thinking	Communication	Application
25%	25%	25%	25%

Term Grades throughout the Year

• The grade for each reporting period is based on evaluations that have been conducted to that point in the course, and will be preliminary and tentative. They will be based on the most consistent level of achievement to that point in time, but some of the overall expectations, strands, and units will not have been addressed. The student's grades will most likely change when their entire work is evaluated at the end of the course.

Course Work

- 80% of the final grade will be based on evaluations undertaken throughout the course. Consideration will be given to the most recent evaluations.
- Missed or incomplete assignments will have an impact on the final grade when a significant number of curriculum expectations have not been evaluated.

Course-Culminating Activities 20%

- 20% of the final grade will be based on evaluations administered towards the end of the course. Final summative evaluations include:
 - o Culminating Activity (research-based)
- All students must take part in the culminating activities.

Learning Skills

- Students will also be assessed for development in a variety of learning skills:
 - o Responsibility, Organization, Independent Work, Collaboration, Initiative, Self-Regulation
 - Learning skills play a critical role in the achievement of curriculum expectations and student success.

Learning Skills (continued)

- Students are expected to be academically honest by submitting their own original work. The marks they receive are intended to reflect their own academic achievement.
- Academic Integrity: See School Evaluation Policy
- Attendance is crucial for satisfactory achievement. Regular attendance and active participation are expected. Students cannot replace the in-class experience by simply getting notes or handouts. All assignments have an impact on students' growth and final achievement in each unit as well as the final evaluations; therefore, students are expected to submit work in each unit in order to meet course expectations. Students are expected to manage their time and workload, and to respect the time constraints imposed. End of reporting period "catch-up" submissions are discouraged, and may not be possible.

Rules for Tests, Quizzes, and Assignments

- Students are responsible for providing evidence of their achievement of the
 overall expectations within the time frame specified by the teacher and
 should understand that there could be consequences for not completing
 assignments or for submitting them late.
- All assignments are expected to be handed in on their assigned due dates. Extenuating circumstances should be discussed with the teacher in advance of due dates. Extensions may be negotiated in certain unforeseeable situations. While credit rescue opportunities will be available, they may be only for students achieving < 50%, and missed work can still result in a mark of zero.</p>
- Should serious illness or extenuating circumstances (*i.e.*: beyond your control) occur on the day of an evaluation, it is the responsibility of the student to inform the teacher as soon as possible.
- **Note:** The policies applicable to missed tests and late assignments are in line with the guidelines as outlined in TDSB policy and the Ministry of Education Policy document *Growing Success: Assessment, Evaluation, and Reporting in Ontario Schools* (page 43).
- The teacher will use their professional judgment to determine what other strategies, as outlined in Growing Success, may be used to help prevent and/or address late and missed assignments.

Plagiarism

Where plagiarism has been suspected, the student will be expected to conference with the teacher, a phone call to parents made and a meeting set up. If it is detected that a student plagiarized a paper by including information in an assignment without proper referencing a mark of zero will be given. For additional information on plagiarism, please consult your student agenda.

Communication

Communication		
Consultation	Students, parents and guardians are asked to contact the course instructor using the information below.	
	Office Location: Modern Languages Department (3 rd floor, Room 307A)	
	Phone : 416-393-1480 ext. 20037	
	Email: Marcela.Smolkin@tdsb.on.ca	
Help	Extra help is available by contacting the course instructor directly.
