

Mason Mustang Round Up

May 3rd, 2024

Each week, Mason Road Jr. P.S. will highlight something awesome that is going on, within or around our school. This week, we would like to showcase the incredible revitalization project that M. Hartwell, her Grade 1 class, and the Eco-Club is doing at the “front” of Mason Rd. Jr. P.S. (I put the word FRONT in parenthesis because our front door is located at the rear of the school.)

Our front entrance way needed some TLC! Overgrown with invasive weeds and other non-native plants, the entire area (scene below) is being transformed into an incredible space that will feature native plants to Canada and our area, pollinator plants, and many other plants that will make Mason Road much more beautiful for years to come.

Thank you to everyone for all their hard work and dedication to making our school into a great place!

Exciting News: Mason Rd was successful in applying to and receiving a grant to create a pollinator habitat in our community with a PollinateTO! Beginning this year, Mason Road will be establishing several pollinator habitats around the school.

Pollinators play an essential role in local biodiversity and by planting native plants, using sustainable landscaping practices, and engaging our community, we will contribute to the important stewardship work of protecting Toronto's pollinators. Keep an eye out for upcoming events!

Upcoming dates:

May 8th – Track + Field Day at Birchmount Stadium

May 10th – Pizza Lunch

May 17th – Freezie Day Fundraiser

May 21-24 -EQAQ (for Grade 3 and 6 students)
