Fire and Lockdown Drills at Nelson Mandela

Each TDSB school is expected to practice both fire drill and lockdown procedures regularly so the staff and students are prepared and understand the routine. This ensures student and staff safety and provides the staff with the opportunity to discuss any improvements that can be made. We recognize that for some students these practices can be a little unnerving, therefore teachers take the time in their classrooms to discuss and review these procedures ahead of time with their students so the students know what to expect. Our first fire drill will be coming soon.
