

# SCHOOL GOALS

2019-2020

Norseman Junior Middle School

# Achievement in Math

- ▣ If we use specific strategies to improve automaticity skills and explicitly focus on multiple choice questions, then EQAO math scores will increase.

# Achievement in Reading

- ▣ If primary teachers implement 'Daily Five' with an emphasis on guided reading, then all grade 1 students will be reading at level 16 by the end of the school year.

# Equity

- ▣ If we visually represent our students' lives and social identities (e.g., culture, race, religion), then we will increase student engagement and their sense of positive identity.

# Well-Being

- ▣ If we focus on building positive relationships with students, then they will feel cared for and safe at school.
