Principal's Report:

Principal Closner provided an update on well-being, equity, and achievement. There are monthly special education meetings and school support team meetings. The NED show was very successful with the children. The learning buddy system is still strong with the student body.

Mindful Mondays: playing calming music. Feedback is overwhelmingly positive. *Without Walls Wednesdays:* spending more time outdoors.

There is now a Grade 6 math club. The students in the club are taking an online course that is run by Stanford University Online.

The math committee is looking into a week of inspirational math later in the school year. North Prep is continuing to focus on our mathematic achievement.

Fun Fair:

Fun Fair 2018 will be a smaller event (ex. after-school BBQ type event). We will do a Fall Pledge for September 2018 – Jill will create the form and present it to the council in June.
