School Council Innovation Grant – The Get Real Movement (for parents/caregivers)

[The School Council Innovation Grant](#) was created by the school board to support innovative (the development of new ideas or the improvement of existing ideas) projects/activities that engages parents/caregivers (in-person, virtual and hybrid).

Our objective for the grant is to provide parents with the tools, knowledge and an increased understanding of issues related to DEI - with a focus on anti-black racism and LGBTQ+ issues, so that they can be better equipped to have DEI related conversations with their children if needed, and an overall better understanding.

We have confirmed 2 nights – one in February for Black History Month – and one in June for Pride Month.
