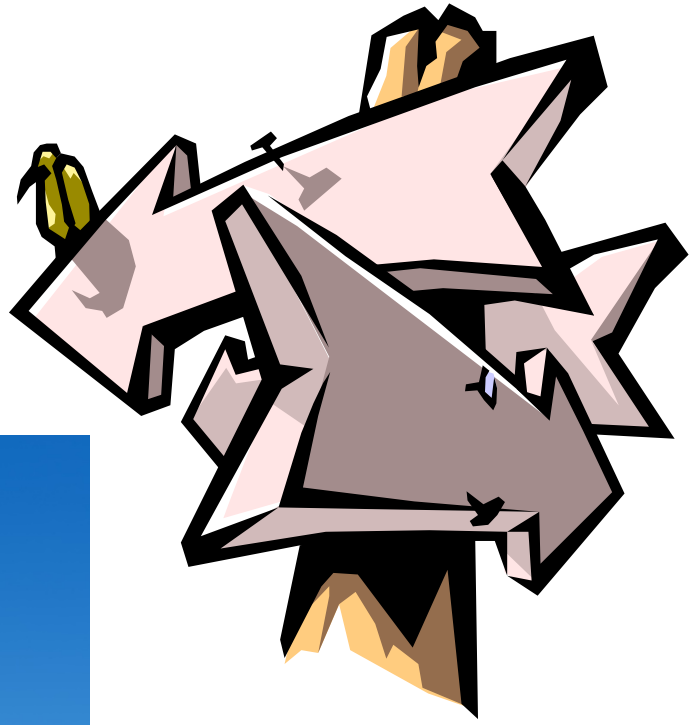
Richview Collegiate Institute
Course Selection 2017



Course Selection Considerations

- O.S.S.D. Ministry graduation requirements:
  minimum 30 credits; 18 compulsory credits
  Check the credit counselling summary CCS
- French Immersion Certificate requirements:
  10 credits; 11+ credits Honours
- Extended French Certificate requirements:
  7 credits; 8+ credits Honours
- Business Certificate; Canadian and World Studies Certificate; Spanish Certificate
- Post-secondary program requirements:
  Grade 12 course pre-requisites for university or college will determine type of courses needed in grade 11
- Pre-requisites to courses in grade 11 and grade 12
- Student's interest and aptitude in subject areas

Ontario Secondary School Diploma Requirements

- Successful completion of Literacy requirement
- **40** hours of community involvement
- **30** credits required for graduation:
  (18 compulsory and 12 optional)

  4 English, one per grade level
  1 French as a second language
  3 Mathematics, at least one in Grade 11 or 12
  2 Science
  1 Canadian geography
  1 Canadian history
  1 Arts (dance, drama, media, music, visual arts)
  1 Health and physical education
  0.5 Civics
  0.5 Career studies

Plus one credit from each of the following groups:

Group 1: an additional English credit
- or French as a second language*
- or a third language
- or a Social Sciences and Humanities credit
- or a Canadian and World Studies credit
- or a Guidance and Career Education credit
- or a Cooperative Education credit *

Group 2: a Business Studies credit
- or a credit in Health and Physical Education
- or a credit in the Arts
- or a credit in Cooperative Education *
- or French as a second language *

Group 3: a Grade 11 or 12 Science credit
- or a Technological Education credit
- or a Computer Studies credit
- or a Cooperative Education credit *
- or French as a second language *

Course types Grades 11-12

College Preparation Courses	University Preparation Courses
provide students with the knowledge and skills to meet entrance requirements for most college programs; they have been developed in consultation with community college staff. Teaching and learning will emphasize concrete applications of the theoretical material covered in the course and the development of critical thinking and problem-solving skills. The courses will focus on the development of independent research skills and independent learning skills	provide students with the knowledge and skills needed to meet entrance requirements for university study. Teaching and learning will emphasize theoretical aspects of the course content, with supporting applications. The courses will focus on the development of both independent research skills and independent learning skills.
ENG3**C**1	ENG3**U**1

Course Types Grades 11-12

University/College Preparation Courses	Open Courses
include content that is relevant for both university and college programs. They provide students with the knowledge and skills they need to meet the entrance requirements for specific university and college programs. The range of courses offered and the content of these courses will allow students to prepare for college and university programs and related careers. Teaching and learning will emphasize both theoretical aspects and related concrete applications of the course content.	allow students to broaden their skills and knowledge in a subject that interests them and which may or may not be related to their post-secondary path. Open courses have one set of expectations for the subject, appropriate for all students in a given grade. These courses are designed to provide students with a broad educational base that will prepare them for productive participation in society.

Ryerson University

Offers of Admission
Basic Requirements for Admission
Ryerson University offers two types of programs:

- Grades selective programs determine your basis of admission solely on academic performance.
- Grades-plus programs use a combination of grades, portfolios, interviews and/or auditions to make admission decisions.

While a minimum high school average of 70% (in six 4U/M courses) establishes your eligibility to apply for admission, individual Ryerson programs may establish higher required admission averages.

Individual Ryerson programs may stipulate specific academic prerequisites for admission, including specific courses and minimum grades. Some programs also stipulate non-academic requirements for admission (e.g., portfolio, admission essay, interview, audition). Minimum grades, typically in the range of 65% to 75% or higher, are required in each of the program-specific subject requirements.

For more information, visit: www.ryerson.ca/undergraduate/admission/overview/.

Admission averages are calculated based on your top six 4U/M courses. Ryerson does not require subject prerequisite marks to be included in your admission average, though you must meet the subject prerequisite grade requirement that is specific to your program.

If you are a high school student, you are encouraged to achieve as much breadth of preparation as possible in the course of your studies leading to the Ontario Secondary School Diploma, and meet the stated subject prerequisite requirements for the program you intend to apply to.

Failed and Repeated Courses
We will calculate your overall average using the final marks from your best six 4U/M courses, which may include repeated/upgraded course marks.

Timing and Process for Admission Decisions
We anticipate that the majority of decisions will be made between February and May 2016 based on application processing timeframes and timelines for evaluating non-academic requirements.

If you submit a complete application (including amendments or additional choices) by the February 1, 2016, application deadline for grades-plus selective programs, and March 1, 2016, for grades-selective programs, you will be guaranteed equal consideration for the Ryerson program(s) you apply to. If you wish to be considered for more than one program, you are strongly encouraged to include all program choices on the OUAC application.

The presentation of admission averages on eINFO are estimates only, and are subject to change. For further information, refer to Ryerson's Official Undergraduate Calendar(s) at: www.ryerson.ca/currentstudents/calendars/index.html.

University of Guelph

Offers of Admission

Basic Requirements for Admission
All students with an average of 75% and higher will be considered for admission to all programs at the University of Guelph.

Failed and Repeated Courses
The University of Guelph will use the highest grade reported for any repeated/failed course.

Timing and Process for Admission Decisions
The University of Guelph will begin making offers of admission in February to applicants with high academic standing. Early offers of admission may make use of 3U/M grades. Offers of admission will be made on a rolling basis until mid-May. All students with an admission average of 75% or higher will be considered for admission. Student Profile Forms will be reviewed in May to consider applicants who fall within 5% of the established cut-off.

Some programs may have additional requirements, including higher final admission averages. All offers are conditional upon the completion of all secondary school diploma requirements including a final admission average, as specified in the offer letter. The final admission average is calculated using six 4U/M courses including required subjects.

Alternate Offers: Normally, applicants can expect to receive only one offer of admission from Guelph. The highest choice to Guelph will be considered first. The next choice is only considered if the applicant is not admissible to his/her highest choice at Guelph. For this reason, applicants are strongly advised to place their preferred program as their highest choice of Guelph programs. Students who apply for, but are not admitted to, a co-op program will be automatically considered for the regular program. These students may re-apply to co-op after their first year of study at the University of Guelph.

Student Profile Forms: The University of Guelph recognizes that non-academic factors play an important role in students' lives. The Student Profile Form (SPF) is an opportunity for applicants to tell about activities in which they may have been involved, and that have helped develop leadership and citizenship qualities. Factors beyond applicants' control that have negatively affected their academic performance, such as illness or personal problems, will also be considered when making decisions.

e-Materials

Admission requirements vary between specific colleges and programs. In most cases, an Ontario Secondary School Diploma (OSSD) or equivalent is required. Graduate Certificate programs require a prior college or university certificate, diploma or degree for admission. In addition, colleges may establish program-specific admission requirements. Please visit **college websites** to learn more about these requirements.

Applicants are responsible for ensuring they meet academic criteria and complete any special prerequisites required for admission (such as specific courses, essays, medical forms, or testing). These requirements are listed as admission requirements in the individual college calendars. The Office of the Registrar will inform applicants of any changes to the admission requirements if they are not contained in recent publications and on college websites.

Programs considered highly competitive will have different requirements than non-competitive programs. Visit our **Highly Competitive Programs** page to learn more.

Prior Learning Assessment and Recognition (PLAR)

Prior Learning Assessment and Recognition is a means of evaluating skills and knowledge acquired either through continuing education, or outside the classroom, through work experience, volunteering, life experience and many other avenues. The assessment results can be applied toward academic credit for those who are upgrading, retraining or pursuing education in Ontario's colleges after being in the workforce.

Though there is no set PLAR standard in Ontario, many colleges develop their own prior learning process, which will help workers who are already knowledgeable in their fields avoid relearning what they already know. Assessments are often conducted through interviews, demonstrations and testing, as well as through evaluation of a PLAR portfolio, which is a collection of documents or items that show recognition for skills and knowledge.

- **Technological Education**:
  Photography TGP3M1

  Print & Comm TGG3M1
- **Cooperative Education**:COOP2
- **Computer Science** ICS3U1

Co-operative Education

- Cooperative Education is a unique program for students, integrating academic study with practical experience in business and industry.
- This learning experience helps students make informed decisions about future careers. Students also develop the work habits, attitudes and job skills necessary for a successful transition from secondary school to the workplace or post-secondary education.

Cooperative Education students are typically in the senior grades, have a variety of post-secondary destinations: college, university, apprenticeship, work, and may be studying in any subject area. Students can earn 2 Cooperative Education credits (half day) or 4 Cooperative Education credits (full day)

RICHVIEW CI
COURSE INFORMATION FAIR

February 14, 2017 (Day 4)
10:05 a.m. – 11:05 a.m.
(the day will follow an assembly schedule)

The purpose of the Course Information Fair is to provide an opportunity for students to gather information about the courses offered by Richview and to use this information to help decide which courses to take in 2017-2018.

There will be **five** 10 minute sessions that students can attend where there will be a teacher to give a brief outline of the course.

Present the *Richview Course Information Passport* at the end of the session for the teacher to stamp or sign. Submit passports with 5 stamps or signatures to the Guidance Department to be eligible for a draw to win a fabulous prize (1 winner per grade).

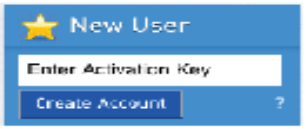
Completing Your Online Course Selection

1) Get Started
In your browser go to **www.myBlueprint.ca/tdsb**.

myBlueprint education planner

2) Existing User?
Enter your email and password.

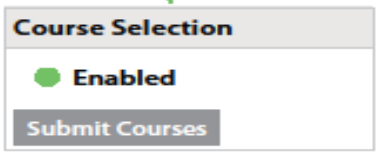
Need An Account?
In the **New Users** box on the left of the page, select your Secondary School from the dropdown and click "**Create Account**".

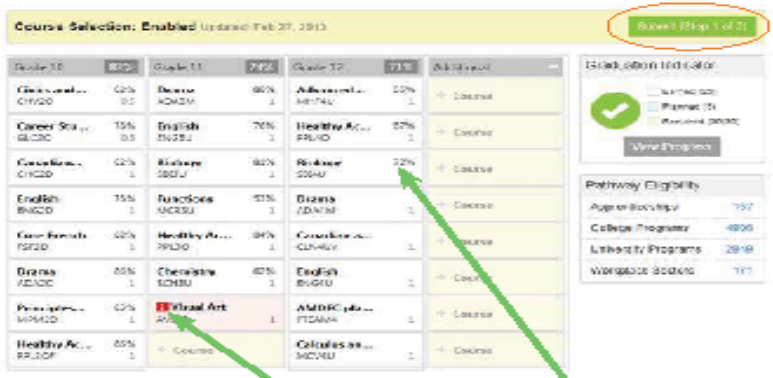


As a New User, you will require the following information before you begin:

- Valid Email Address
- Ontario Education Number (OEN) found on timetable Required once only
- Your Date of Birth (DOB) Required once only

3) Your Official High School Plan
Once you have completed the registration process, you can access your "**Official High School Plan**" by clicking on the "**Submit Courses**" button in the Course Selection box on the home page.





If the Course Selection box says "**Plan Courses**" you can plan your courses but you cannot submit them until your school has enabled course selection.

If you do not see the Course Selection box, check the Course Selection issue alert at the top left of your home page.

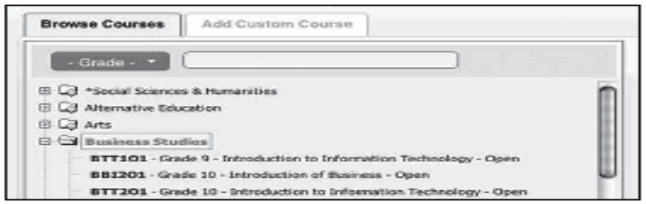
Red box indicates issue with course. If a prerequisite is missing, fill it in.

Your marks are indicated for all completed courses.

Completing Your Online Course Selection

4) Add Your Courses for Next Year

- In the High School Planner grid, click "**Add [Course]**".
- Add compulsories first, and if required use the first four spaces for Semester I prerequistes for Semester II courses.
- In the **Course Selection and Details** screen, explore the courses available to you.
- Click "**Add Course to Plan**" when you find the course you want. It is automatically saved.



ATTENTION

CHOOSE WISELY!

- **Think of your plan**
- **Think of your future**

Course Code's fifth position indicates the course type.

Course Type	
C – College	**M** – College or University
D – Academic	**O** – Open
E – Workplace	**P** – Applied
L – Locally Developed Compulsory	**U** – University
	N – Non-Credit

The sixth position indicates program or credit differentiation, or the focus of the course. In this case: 1 = Regular

Program Differentiation for Non-Tech Courses

1 = Regular credit course	**A** = Part 1 (0.5)
2 = Beginner or Introductory course	**B** = Part 2 (0.5)
3 = Enriched course	**E** = e-Learning course
4 = Extended French course	**Health and Physical Education**
5 = French Immersion course	**F** = course for females
6 = Gifted course	**M** = course for males
7 = International Baccalaureate course	**1** = co-ed courses
8 = Self-contained ESL course	
9 = Self-contained special education course	
0 = Advanced Placement	

French Immersion and other specialty programs have a unique sixth character indicated on individual school chart.

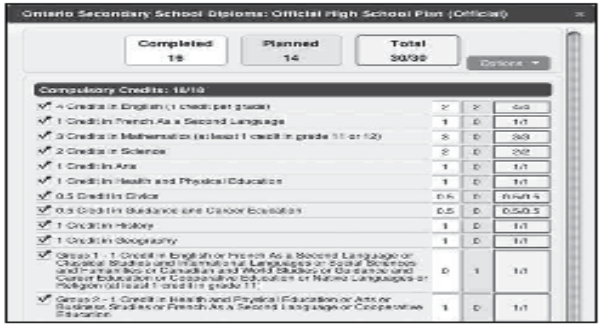
Program Differentiation for Tech Courses

Tech credits sixth character indicate credit value: **1, 2** or **3** credits e.g. **TTJ3C2** = **2** credits.

5) Look at Your Graduation Progress

The **Graduation Indicator** will help you keep track of your progress. Click "**View Progress**" for a list of specific Ontario Secondary School Diploma requirements.

Review this feature to ensure you are selecting courses that will keep you on track to graduate!



6) What can You do after High School?

Before you submit your courses, it is important to understand the impact they will have on your future after secondary school. Plan ahead and build a full 30-credit plan to instantly discover the post-secondary opportunities available to you using the **Pathway Eligibility** Indicator.

Completing Your Online Course Selection

7) Submit Your Courses
You can only submit **once**! When you are ready to submit your course selections, click "**Submit (Step 1 of 2)**". Note: the "Submit" button will only appear if it is course selection time (as set by your school).

8) Confirm & Print
Carefully review the **Submission Details** page to ensure that you are meeting the requirements for the courses you have selected and that the courses that appear are correct. Once you have reviewed, click "**Confirm & Print (Step 2 of 2)**".

9) Sign & Submit – You're done!
Please print and return a signed copy of your Course Selection Sign-Off Sheet and submit it to your Counsellor or Teacher.

Once you have printed off your Course Selection form and had it signed by a parent, it can be dropped off in Guidance. Please place your sheet in the folder indicated by your current grade.

Grade 9 Grade 10 Grade 11

Deadline for submission 4:00pm February 24.

Don't forget to drop off your milk bags for our Milk bag MATters group.

Things I wish someone would have told me

- There are only so many hours in a day…in grade 11 and 12 you should focus/reduce the non-academic involvement to 2 or 3 (including sports teams) especially if you are taking on a Leadership role as an executive or leader as there is only **one** lunch meeting that you can attend !

- If you commit to an activity , people expect you to show up!

Chief Executive

EXTRA CURRICULARS
