All of the TDSB is moving towards becoming cashless schools so that children do not have to bring money to school (with the chance of it getting lost), schools do not have to hold a lot of money (with a chance of it getting lost) and to keep up with the ever changing times of the world.

Daily use of technology happens in class. Students in Mrs. Peralta's class are using the Chromebook to record their knowledge about division in math.

Spring is sprung! Take a look at the lovely spring trees that the students in Room 105 created. [#artfulstudents](#) [#springhassprung](#) [#studentart](#)

Mr. Ho is taking the students around the room doing a gallery walk to look at strategies used during math class. All students get the chance to contribute to classroom discussion. A gallery walk is a great way for students to share & see different strategies that are being used.

After a field trip my kindergarten kids always do a writing reflection. The overwhelming favorite for our visit to the Royal Ontario Museum was the dinosaur displays. [#kindergartenwriting](#) [@ROMtoronto](#) [@TDSB\\_RoywoodPS](#)

On March 19 some families in our school family celebrated Nowruz. This is the Persian New Year. It marks the official beginning of spring and a brand new year. Nowruz means "new day." Students painted the Hyacinth Flower which is symbolic of Spring. #Nowruz 🇪🇬 @TDSB\_RoywoodPS

# Continued Learning for All

Students, Families & Staff

# School Improvement Planning @ Roywood PS

## Literacy Goal:

Through a structured literacy approach in Kindergarten to Grade 1 and a deeper application of the comprehensive literacy program in Grades 2-5, the students of Roywood will develop their confidence in decoding and comprehending texts at or above their expected grade level. We will focus on the most underserved students. Teachers will learn how to use phonological and phonemic screeners to develop instruction based on early reading needs. We will monitor three times a year using DRA and ongoing running records.

## Math Goal:

By implementing evidence based numeracy strategies (high-impact instructional practices), we will improve student engagement, learning, and attitudes towards math. To accomplish this, we will support teachers to make instructional choices that help to eliminate disproportionate outcomes and to interrupt oppressive practices (e.g. provide explicit needs-based professional learning opportunities such as "Building Foundational Math Skills in the Early Years" and "Building Thinking Classrooms in Mathematics Through an Anti-Oppressive Lens", work with Math Learning Partner, etc.)
