# Continued Learning for All

Students, Families & Staff

# School Improvement Planning @ Roywood PS

## Literacy Goal:

Through a structured literacy approach in Kindergarten to Grade 1 and a deeper application of the comprehensive literacy program in Grades 2-5, the students of Roywood will develop their confidence in decoding and comprehending texts at or above their expected grade level. We will focus on the most underserved students. Teachers will learn how to use phonological and phonemic screeners to develop instruction based on early reading needs. We will monitor three times a year using DRA and ongoing running records.

## Math Goal:

By implementing evidence based numeracy strategies (high-impact instructional practices), we will improve student engagement, learning, and attitudes towards math. To accomplish this, we will support teachers to make instructional choices that help to eliminate disproportionate outcomes and to interrupt oppressive practices (e.g. provide explicit needs-based professional learning opportunities such as "Building Foundational Math Skills in the Early Years" and "Building Thinking Classrooms in Mathematics Through an Anti-Oppressive Lens", work with Math Learning Partner, etc.)
