

HOW CAN WE HELP?

CSW's lead, support, refer and participate in local and system-wide parent/caregiver and community development initiatives that work to close student achievement and opportunity gaps.

Connect with me for support with finding local community resources for families, family-centered program referrals, community outreach, volunteer recruiting or training/workshop strategies that will help to increase parent/caregiver involvement resulting in positive outcomes for student achievement and wellbeing.

Community Support Worker for:

- Maryvale Public School
- Charles Gordon Senior PS
- Heather Heights Junior PS

BABAK NIKMARD

Community Support Worker

WE SUPPORT SCHOOLS BY BUILDING/ENHANCING SCHOOL-COMMUNITY RELATIONSHIPS

Supporting Literacy Goals

Work with schools to ensure parents/caregivers are informed and engaged in school-wide literacy goals. Offering opportunities for families to participate in ongoing culturally relevant early literacy programming to improve family literacy and parent/caregiver involvement to positively impact student achievement.

Inclusive & Effective School Councils

Solidify our understanding of purpose and function of school council, encouraging the meaningful involvement of all members of the school community in support of student learning. Ensuring families from all backgrounds—regardless of socioeconomic status, ethnicity, race, gender, household income, or postal code—have equal opportunity and access to participate and contribute to School Council.

School Improvement Process

Include parents/caregivers in the school improvement process (SIP) by inviting them to participate in initiatives aimed at building safe and inclusive school communities. Using data to create and share tools for engaging families to build strategic school-family-community partnerships.
