

Toronto District School Board

TDSB Connects App

Available for Staff and Students

IT Services
CONNECT • DISCOVER • LEARN • CREATE

Overview

- The new **TDSB Connects app** provides a direct and simple way to stay connected with your staff and students and will be especially valuable now as students toggle between in-class and at-home learning.
- The app provides the ability to quickly share announcements, updates, calendar events and more through an easy-to-use interface to help communicate effectively and reduce reliance on email.
- There is also a School Info section that can replace the district and school created front matter of student agendas.
- Students can use the app to stay organized with their school work, school day calendar and keep in touch with their school community. Additional features will be added on an on-going basis to make it even more valuable to students.
- The **TDSB Connects App** supports our commitment to be more digitally-friendly, reduce paper and find new and engaging ways to connect with students to support their success.

Main Features

The following are the main features of the TDSB Connects mobile app:

My Day

The My Day feature will provide students with a view of their current school day, including upcoming timetable items, agenda items and calendar events.

Announcements

The Announcements feature will provide the ability to view and create announcements in Brightspace.

Agenda

The Agenda feature will allow students in grades 4 to 8 to add informational items (e.g. notes, to dos, goals, etc.) to their current school day in an agenda format. The Agenda feature will not appear for secondary students.

Timetable

The Timetable feature will allow students in grades 9 to 12 to view their Trillium timetables. They can also add informational items (e.g. notes, to dos, goals, etc.) to courses in their timetables. The Timetable will be used by students in grades 9 to 12 and will not appear for elementary students.

Calendar

The Calendar feature that was developed for the first release of the app will be enhanced to allow students to view and add events to their individual student G Suite calendars.

School Info

The School Info feature will display the front matter of the physical planners, including the school Code of Conduct.

School Resources

The School Resources feature will display a list of links to resources that are external to the application. The list will include links that were created centrally as well as resources that have been added locally in the school.
