

Connecting to TDSB-WIFI (Android)

Information

This guide was made for Samsung-based Android devices. Because there are many different Android devices, the steps to set up may differ from this guide.

1. Open the app drawer and select **Settings**.

2. Select **Connections**

3. Ensure that Wi-Fi is turned on.

4. Select **TDSB-WIFI**

5. Enter the following information depending on the version of the Android operating system the device has, then select **Connect**:

Android Devices

EAP Method: PEAP

Phase 2 authentication: MSCHAPV2

CA Certificate: Don't validate

Identity: Employee number

Password: TDSB network password

Google Pixel's Only

EAP Method: PEAP

Phase 2 authentication: MSCHAPV2

CA Certificate: Use system certificates

Online Certificate Status: Do not validate

Domain: wifi.tdsb.on.ca

Identity: Employee number

Password: TDSB network password

6. Your device is now successfully connected to TDSB-WIFI.
