<p>Parking lot safety-very challenging to managing the students and more challenging managing the behaviours of adults and stress coming. Re-occurring theme or new to school. Coming out of the pandemic more at aware of at risk. As principal I will continue messaging and officer Rich. Its not you're the principal job to be a police officer. You need to communicate your expectations to the adults. Msging will continue and individual messaging will continue. Care and safety gave some suggestions and Toronto police to offer to feedback its really good and everyone is being respectable. He sees worse than SAB. We don't have the staff to do a proper kiss and ride because of collective agreement. Concerns about re introduced parent safety program monitors and their job was supposed to be</p>

Bev spoke to the Superintendent and trustee. The trustee said it is TDSB responsibility. It is a TDSB vision its an assessment to assess the streets near by. SAB isn't slated to be assessed by TDSB. Is it sustainable? To have enough ppl to volunteer everyday? Stacey-we can't use pylons. Can we use pylons for the lined areas to parking in the non spots the lines where aren't suppose to ride. You have ppl leaving there cars in the kiss and ride and the lined areas its really tight. The handicap spot- ppl say they forgot the sticker. Sarah- parents brought out the cones for the parent safety program. Lindsay- would like the AAASI community need to involved in the solution. AAASI community needs to share the share information. It needs to loop in the daycare. Meagan would be a flyer as non confrontation way at 3:00 when ppl leave the cars. Christie we have talked about it and usually its chaos and its ppl we aren't reaching the aren't meeting resources. Maybe we can reach out now if anyone wants to head it.
