What do they do?

Financial planners develop personal financial plans for clients covering cash management, finances, insurance coverage, investments, retirement and estate planning, taxes, and legal matters. They analyze clients' financial records, set goals, develop a financial strategy, and advise clients on implementing the financial plan to help them achieve their goals. Financial planners may also arrange for the purchase and sale of financial products and investments. Depending on the licence held, they monitor the portfolio to ensure its quality and profitability to help expand business and attract new clients.

Overview

Achievement

Primary Motivation Factor

1. Something that has been accomplished, achieved or completed through effort; the result of hard work
2. Successful completion; accomplishment

When you're driven by achievement, you look for ways to feel like you've done something. Whether it's checking something off your to-do list every day or saving the environment, Achievers are motivated by the opportunity to fully engage the use of their unique skills, knowledge and abilities and create a feeling of accomplishment.

Independence

Secondary Motivation Factor

1. Not controlled or influenced by others in matters of opinion, conduct, decisions, etc.; thinking or acting for yourself.
