

# EMPOWERING PARENTS THROUGH AI & ASSISTIVE TECHNOLOGY

2-part hands on training sessions on how generative AI can be harnessed to support individuals with developmental disabilities.

Hosted by Keegan Newberry  
Assistant Director of Assistive Technology  
(Developmental Disabilities Association)

## Session 1

- Overview and demonstration of generative AI technologies
- Information resource and guidance to create resources for your child

## Session 2

- Allows participants to get feedback on resources they have created
- Create a resource pool for all parents
