

Grandma's Coins Problem

My grandma gave me a few coins from her change purse. When I counted it up, I had 37¢.

- What coins do you think she gave me?
- Show your thinking.

Grade 2

- estimate, count, and represent (using ¢ symbol) the value of a collection of coins with a maximum value of one dollar
- add and subtract money amounts to 100¢, using a variety of tools (e.g., concrete materials, drawings) and strategies (e.g., counting on, estimating, representing using symbols)
