

Things Charles G. Fraser Can Do to Help Keep Our

1. Use both sides of paper.
2. Turn off the lights when we aren't in the room.
3. Wear a sweater to keep warm, instead of turning the heat up.
4. Have plants in our classroom to help keep the air clean.
5. Bring our lunch in a reusable lunch bag.
6. Use a refillable bottle rather than a juice box.
7. Use real plates and cups and cutlery rather than plastic, styrofoam, or paper.
8. Recycle bottles and cans.
9. Use pencils and crayons until they're completely gone.
10. Plant a tree. Trees help reduce carbon dioxide and increase oxygen, which we breathe in.
11. Recycle old books and magazines by passing them around to friends and donating them to libraries or charitable organizations.
12. Remind your friends - Go GREEN!
