Business Leadership: Becoming a Manager

This course helps students prepare for managerial positions in their future careers. Students will focus on the development of core skills required to become a successful manager, including operations management, inventory control, marketing, financial planning, scheduling and communication. Students will also explore the management challenges of hiring, training, and motivating employees, and complying with legal requirements. Students will recreate the day-to-day experiences of starting and running a small business through the use of the GoVenture computer business simulation.

Topics:

- The Role of the Manager
- Operations Management
- Leadership
- Human Resource Management
