Can't find an item? Each school creates its own items for purchase and assigns them to its students. Once assigned, items will appear under the student's tab. If you can't find an item, the item may not be available for purchase, has expired, or is not assigned to your student.

3. In our example, school cookbooks are for sale to all students. There are two options: buy a book for \$20 or buy a book for another family for \$18. The Quantity field at the bottom of the page is for **all** checked options.
4. Example A: I want to buy one of each book. I check the boxes beside both options and leave the Quantity as 1. The Amount Due field updates to \$38 $([1 \times \$20] + [1 \times \$18])$. Then I press Add to Cart and one of each option will be added to my cart.
